Bachelor of Technology in Electrical and Electronics Engineering (EEE)

Vaagdevi College of Engineering, India

Graduated: May 2021

Relevant Coursework: Microprocessors, Digital Electronics, Control Systems, Power Electronics

PROFESSIONAL EXPERIENCE

Data Analyst – Reporting & Business Insights

Nov 2024 – Present

1st Source Bank– Fort Wayne, IN

- Developed automated dashboards using Power BI and Excel, reducing manual reporting effort by 60%.
- Wrote complex SQL queries to extract and transform data from Oracle and internal databases for executive reports.
- Conducted trend analysis on customer behavior and financial performance using Python (Pandas, Matplotlib).
- Collaborated with finance and compliance teams to improve KPI tracking, enhancing reporting accuracy and speed.
- Used SAP ERP system to pull operational and transactional data for reconciliation and financial insight generation.
- Performed ad hoc analysis to support budget planning and reduce operational inefficiencies.

Data Analyst – Marketing & Operations Analytics

June 2020 – Dec 2022

Annalect – Hyderabad, India

- Analyzed campaign data using Excel pivot tables and Power BI, identifying trends that increased ROI by 25%.
- Created performance reports and dashboards in Tableau, visualizing KPIs for marketing and leadership teams.
- Pulled and standardized data from SAP ERP systems and third-party APIs, improving data integrity in reporting.
- Developed a forecasting model using Excel and historical sales data, improving forecast accuracy by 18% over two quarters.
- Identified root causes of inventory discrepancies using ERP audit logs, reducing excess stock by \$120K annually.
- Implemented checks for data quality and consistency, improving data accuracy by 30%.
- Partnered with sales and operations teams to align demand planning with historical trends and forecasts, optimizing inventory levels and improving supply allocation to meet service and financial targets.
