

DEEPTY GOYAL

Data Analyst | Business & Environmental Analytics

Mechanicsburg, PA | gdepty.1947@gmail.com | linkedin.com/in/deepty-goyal | +1 717-462-3590

PROFESSIONAL SUMMARY

Data Analyst with 10+ years of experience analyzing large, structured datasets to support data-driven decision-making and operational insights. Proficient in SQL, Power BI, Tableau, R, Excel, and Alteryx, with hands-on experience in dashboards, KPI tracking, trend analysis, and predictive modeling. Currently pursuing an M.S. in Data Analytics and seeking a Data Analyst role in a U.S.-based organization.

TECHNICAL SKILLS

Data Analysis: SQL, R, Excel (Advanced), Statistical Analysis, Time-Series Analysis

Databases: Relational Databases, SQL Queries

Business Intelligence: Power BI, Tableau

Data Preparation & ETL: Alteryx, Data Cleaning, Data Validation

Visualization & Reporting: Dashboards, KPI Tracking, Executive Reporting

Tools: ArcGIS (Spatial Analysis), Google Sheets

EDUCATION

Harrisburg University of Science and Technology, PA

M.S. in Data Analytics | Expected Feb 2027

Relevant Coursework: Predictive Analytics, Statistical Modeling, Data Visualization

Ramjas College, University of Delhi, India

M.Sc. Chemistry | 2015

S.G.T.B. Khalsa College, University of Delhi, India

B.Sc. Chemistry | 2011

PROFESSIONAL EXPERIENCE

Central Pollution Control Board (CPCB), *Government of India*

Senior Research Fellow / Data Analyst

Nov 2014 – Dec 2024

Data Analysis & Business Intelligence

- Analyzed large-scale, multi-year datasets to identify trends, anomalies, and performance gaps, supporting data-driven planning and performance evaluation.
- Built **interactive Power BI dashboards** and monthly reports for senior stakeholders, improving **visibility into KPIs and operational performance**.
- Automated recurring reports using SQL, Excel, and Alteryx, reducing manual reporting effort and improving data accuracy.

Advanced Analytics & Modeling

- Developed **time-series and trend models** to evaluate seasonal and human-driven impacts, achieving **~72% predictive accuracy**.
- Performed **data validation, cleansing, and transformation** to ensure high data quality across multiple sources and states.

Stakeholder & Decision Support

- Translated complex analytical outputs into **clear insights for non-technical stakeholders** including executive leadership and cross-functional teams.
- Supported **evidence-based decision-making** by delivering concise summaries, visualizations, and performance metrics.

Project & Cross-Functional Collaboration

- Worked cross-functionally with **policy teams, engineers, and international partners (World Bank)** to align data requirements and reporting standards.
- Led training sessions for analysts on **dashboard design, visualization best practices, and data interpretation**.

Regulatory & Risk Analytics

- Prepared **300+ analytical reports and data summaries** for legal and regulatory reviews, ensuring accuracy and audit readiness.

CERTIFICATIONS

- Google Data Analytics Professional Certificate
- Alteryx Designer Core
- Alteryx Foundational Micro-Credential

FREELANCE DATA & ANALYTICAL WORK

- Delivered 1,000+ structured analytical and quantitative solutions, strengthening problem-solving, data interpretation and written communication skills.
- Created step-by-step explanations aligned with **U.S. academic and professional standards**.
