PROFILE

I'm a detail-oriented and compassionate professional with a foundation in education and a growing passion for data analytics. My experience as a Special Education Teaching Assistant taught me how to interpret individualized learning data, communicate insights effectively, and collaborate across diverse team—all essential skills in the analytics field. I am eager to enhance my expertise and develop professionally as a data analyst.

SKILLS

Tableau
Power BI
SQL
Excel
Python
Git/GitHub
Data Analysis
Problem Solving
C, C++

DATA ANALYTICS EXPERIENCE

Nashville Software School

Data Analyst Apprentice

May 2025 - Present

Intensive part-time bootcamp focusing on data analytics fundamentals and problem solving. Used real-world datasets and included projects where findings were presented to stakeholders from the community

- Analyzed data using Microsoft Excel, including utilizing pivot tables and lookups, and connected to external data sources using the PowerPivot add-on
- Retrieved and analyzed data using PostgreSQL
- Utilized Power BI for end-to-end analytics, including Power Query (ETL & data shaping), DAX calculations, and data modeling (star schema, relationships)
- Source code version control with Git/GitHub
- Project management/tracking with GitHub project boards and issue tracking

Projects

- [Hospital Rating Dashboard](#): Analyzed national hospital quality and patient experience metrics, built a clean data model, and developed interactive Power BI dashboards to compare hospital performance, identify low scoring categories, and highlight improvement opportunities.
Tools & Skills: Power BI (Power Query, DAX, Data Modeling), ETL & Data Shaping, Interactive Dashboard UX, Data Storytelling, Git/GitHub Version Control
- [Capstone Project - Crash Analysis \(NHTSA Data\)](#): Analyzed NHTSA crash datasets to identify key risk factors and injury trends. Performed data cleaning and exploration analysis in Python, modeled injury severity, and built interactive dashboards in Power BI to visualize crash patterns by region and time.
Tools & Skills: Python, Jupyter Notebook, Power BI, Excel
- [Accident Report Analysis - Gray Line Tennessee](#): Cleaned and standardized multi-year accident records, resolving naming inconsistencies and creating unique driver IDs. Merged vehicle data and performed exploratory analysis to uncover trends by time, location, driver demographics, and vehicle type.
Tools & Skills: Python, Jupyter Notebook, Excel
- [UN - Exploration](#): Performed exploratory data analysis on the UN Data (Gross Domestic Product and Internet Usage) datasets using Pandas via Jupyter Notebook.
Tools & Skills: Python, Jupyter Notebook, Excel
- [Lahman Baseball](#): Used a dataset of 27 tables created by Sean Lahman and Postgres SQL to analyze baseball statistics, which required the use of joins, case statements, window functions, and common table expressions.
Tools & Skills: SQL, PgAdmin, Excel

- [App Trader](#): Cleaned, explored, and analyzed data from the Apple App Store and Google Play Store. Visualized and presented data-based investment recommendations on the top 10 most profitable apps in both app stores, as well as what genres, price ranges, and content ratings of apps tend to be the most profitable.
Tools & Skills: SQL, PgAdmin, Excel
- [Nashville City Cemetery](#): Cleaned and explored dataset on burials at the Nashville City Cemetery from 1846 to 1979 to find interesting facts for marketing materials for the cemetery. Created visualizations on age at death by race, number of burials by year, common causes of death, and more.
Tools & Skills: Excel, Data Storytelling

EXPERIENCE

Special Education Paraprofessional

Jan 2023 – Present

Crockett Elementary School, Brentwood, Tennessee, US

Dedicated Special Education Paraprofessional supporting students with diverse learning needs. I am skilled in adapting instructional materials and fostering inclusive classroom environments. Proven ability to collaborate with educators and therapists to promote academic and social success.

- Support students with disabilities in academic, behavioral, and social development
- Provide one-on-one and small group instruction under teacher supervision
- Monitor and document student progress and behavior

Took a planned career break to focus on full-time parenting and family relocation

Software Developer

Dec 2007 – Jan 2009

JennySys Information Technologies Pvt Ltd, Bengaluru, India

- Designed and implemented SQL tables and procedures to facilitate report retrievals.
- Proficient in writing queries for data analysis and reporting purposes.
