EDUCATION

Stevens Institute of Technology, New Jersey

Aug 22 – May 24

Masters of Science, Computer Science

3.92 / 4.00

- Web Programming, Advanced Algorithms, Agile Development, Cloud Computing, Data Mining

Amity University Mumbai, India

Aug 17 – Jun 21

Bachelor of Technology, Computer Science

7.89 / 10.00

- Data Structures, Operating Systems, Databases, Advanced Java, Networking, Distributed Systems

SKILLS

Programming Languages Python, JavaScript, React, HTML, CSS, SQL **Misc** Redis, AWS EC2, AWS S3, Figma
Databases MongoDB, MySQL, GraphQL **Dev Tools** Docker, Kubernetes, Git

EXPERIENCE

Vtol Aviation Pvt Ltd, India | Full Stack Software Developer

Jun 21 – Jun 22

React, Python, Pandas, OpenCV, Pytorch, Gstreamer

- Led team of 3 for building AI-assisted Image Labeling Tool, reducing manual annotation hours by 80%
- Doubled payload streaming efficiency to 30 fps by developing custom streaming pipelines
- Developed ground station software for drones, featuring mission planning and real time video monitoring
- Implemented tracking and object detection using open-source architecture like DeepSort and Yolo
- Integrated custom camera payloads with drones to enable seamless streaming and camera movements

Snapper Future Tech, India | Software Developer Intern

Jun 20 – Sep 20

Django, Selenium, Pytorch

- Scraped news feeds and tweets to develop a sentiment dashboard for users and trading models
- Trained DQN-based RL model for crypto trading, achieving a 20% profit over 2 years in backtesting
- Programmed and tested high-frequency trading strategies, such as index and event arbitrage

Elixia Tech, India | Software Developer Intern

Jun 19 – Aug 19

Python

- Implemented real-time cargo loading recommendation tool, reducing packing time by 40%
- Optimized delivery routes using shortest route planning, resulting in a 25% reduction in delivery times

PROJECTS

BlogNotFound

Spring 2024

Next.js, Node, GraphQL, AWS S3, Tailwind CSS

- Developed a full-stack web app with user authentication (NextAuth) and 25+ secure API endpoints
- Implemented commenting, tagging features to foster user interaction and a custom search functionality using Elastic Search for efficient blog and user discovery
- Utilized AWS S3 for efficient image storage, ensuring smooth user experience and scalable image management

ShareSpace

Spring 2023

Express, MongoDB, HTML, CSS

- Built a scalable self-storage marketplace inspired by Airbnb, implementing 20+ secure API endpoints
- Streamlined user experience with secure booking, ratings and custom UI for seamless storage solutions
- Integrated Open Street Map for location-based search, empowering users to find perfect storage spaces

Project Solar

Fall 2022

Express, MongoDB, Web Sockets, HTML, CSS

- Developed an end-to-end solution to optimize project management for solar energy companies
- Enhanced client communication with features like custom notifications and real-time chat using web sockets
