PROFESSIONAL SUMMARY

Multi-sector Data Analyst with 3+ years of experience leveraging data to uncover trends, optimize decision-making, and improve business outcomes. Proficient in SQL, Tableau, Power BI, and Excel to analyze internal and external datasets, generate actionable reports, and communicate insights clearly. Adept at collaborating with cross-functional teams to align data strategies with business goals. Skilled in promoting best practices in data governance, reporting standards, and analytics efficiency.

PROFESSIONAL EXPERIENCE

Data Analyst

Skin of Culture and Hair Center Dermatology

Apr 2023 – Present

Atlanta, GA

- Analyzed clinical and operational data to detect performance trends, resulting in improved patient scheduling efficiency by 10%.
- Designed and deployed 15+ interactive dashboards in Tableau and Power BI to track billing, patient volume, and provider performance.
- Led end-to-end ETL processes using SQL and Excel to extract data from ModMed, transform it for analysis, and load it into reporting dashboards.
- Collaborated with clinical and administrative departments to define reporting needs and deliver insights supporting strategic decisions.
- Automated claims reporting using SQL and Excel, reducing manual workload by 40% and improving data accuracy.
- Promoted data best practices and ensured HIPAA-compliant data processing, achieving zero compliance incidents.

Reporting & Data Analyst

Sundry Market Ltd

Feb 2022 – Mar 2023

Port Harcourt, Nigeria

- Conducted quantitative research using SQL and Excel to uncover customer trends, leading to a 15% increase in retention.
- Built data dashboards for inventory and procurement management, helping reduce excess inventory by 20%.
- Produced regular and ad hoc financial reports for leadership, improving visibility into KPIs and quarterly planning.

- Partnered with supply chain and finance teams to streamline reporting processes and implement data validation practices.
- Advocated for data quality and consistency by standardizing reporting formats and enhancing ETL processes.
