EDUCATION

Kennesaw State University, Marietta, GA
Bachelor of Science in Computer Science

May 2019
GPA: 3.77

RELEVANT SKILLS

Languages: Java, C++, SQL, HTML, PHP, Python, JavaFX, Gherkin, JSON, XPath
Software/Tools: MS Office Suite, IntelliJ IDEA, jGRASP, Eclipse, Selenium WebDriver, SpringBoot, Swagger UI, Postman, JIRA
Platforms: Mac OS, Windows OS, Amazon Web Services

PROFESSIONAL EXPERIENCE

Associate Application Developer, ADP Aug. 2019 – Sept. 2020
Performed two roles as an automation tester and as a full stack developer:

Automation Tester

- Acquired UI testing background, including requirement analysis, creating components, writing and executing test cases, logging defects, and examining test reports
- Design test cases for specific test areas or overall plans for small to medium size projects (e.g. functional, end-to-end)
- Participate in peer reviews of test cases and automation scripting

Full Stack Developer

- Assisted in developing and maintaining of new APIs for integration
- Resolved technical issues relating to UI application by identifying and fixing bugs

COLLEGE PROJECT EXPERIENCE

Java to Python Compiler, Kennesaw State University Jan. 2019 - Apr. 2019

- Collaborating with a team of five students to design a compiler that takes in Java code and translate it into Python code for the back end.
- Helped design the User Interface using JavaFX to create an application for the front end.

Cloud-based Attendance System, Kennesaw State University Sept. 2018 - Dec. 2018

- Collaborated with another student to develop a static website using PHP on the front end and utilized Amazon Web Services, such as EC2 and S3 Buckets, on the back end.
- Designed uses cases and Gantt Charts to complement the project.
