## OBJECTIVE

Highly motivated and detail-oriented GIS professional with 4 years of experience in geographic data analysis, spatial data management, and map creation. Adept at using GIS software tools, including ArcGIS and QGIS, to provide accurate insights and drive data-driven decision-making. Seeking to leverage skills in GIS analysis and cartography to contribute as a GIS Analyst/Cartographer/Technician/Developer.

---

## SKILLS

- GIS Software & Tools: ArcGIS, QGIS, ArcMap, ArcCatalog, GeoServer, PostGIS
  - Data Analysis & Mapping: Spatial analysis, geospatial data processing, cartography, geospatial data visualization
  - Programming & Scripting: Python, SQL, R, JavaScript, HTML/CSS, ModelBuilder
  - Database Management: PostgreSQL/PostGIS, MySQL, SQL Server, Microsoft Access, Amazon Workspaces, ArcGIS Enterprise and Portal/Cloud
  - Remote Sensing: Image classification, satellite imagery analysis, raster data manipulation
  - Project Management & Collaboration: ArcGIS Online, Story Maps, field data collection with mobile devices (Collector, Survey123)
  - Soft Skills: Problem-solving, attention to detail, teamwork, communication, technical documentation
- 

## PROFESSIONAL EXPERIENCE

GIS Judge Microsoft (Via Hi-Tech Talents) - Bellevue, WA

Mar 2021 - Jan 2023

- Used OpenStreetMaps and Bing Maps to determine whether a populated place (i.e. city, town, etc.) that exists in one map data provider database also exists in a database by another map data provider.
- Analyzed and reported over 100 customer dissatisfaction feedback tickets daily to different team departments pertaining to mapping issues on Bing Maps.
- Completed over 200 mapping tasks daily using microtask platform MapRoulette and utilized JOSM and QGIS to edit mapping errors on OpenStreetMaps.

GIS Analyst JBLM DPW (Via Fedtec) - JBLM, WA

Aug 2023 - Apr 2025

- Satisfied customer needs by creating different types of map products and services such as utility maps, navigational grid maps, topographic maps, and shapefiles, geodatabases, and CAD files.
- Updated and created utility data for the utility system at JBLM mainly handling stormwater, wastewater, and water utility features by both creating polygon, line, and point features in ArcGIS Pro and editing attribute tables and fields by following Quality Assurance Plans (QAPS).
- Assisted with creating feature services for web apps for the JBLM DPW GIS Web portal and creating web apps for clients to interact with i.e. utility app and land navigation app.
- Completed over 455 mapping and data requests from clients at JBLM and also clients/contractors outside of JBLM.

---

## EDUCATION

University of Washington - Seattle, WA

Sept 2015 - Jun 2020

- Bachelor of Arts - Geography

University of Washington - Seattle, WA

Sept 2023 - Jun 2024

- Professional & Continuing Education - GIS Certificate

---
