

Dr. Hima Bindu Nekkhalapu, MBBS, MSHI

Healthcare Informatics Specialist

drhimabinndu@gmail.com | 916-540-8094 | Granite Bay, CA | linkedin.com/in/hima-nekkhalapu-39975b1a5

PROFILE

Experienced Healthcare Informatics Specialist with a strong foundation in Clinical Informatics, Data Analysis, Research, Healthcare Management, Primary Care, and Nutrition. Proven leader in managing complex datasets, ensuring regulatory compliance, and guiding cross-functional teams. Passionate about enhancing outcomes through integrated informatics strategies and well prepared to contribute to an innovative organization while pursuing ongoing professional growth.

WORK EXPERIENCE

Healthcare Informatics Consultant (Remote), Amaravathi Hospitals, AP, India

Dec 2023 - June 2025

- **Data Analytics & Decision Support:** Gathered, analyzed, and interpreted healthcare data to generate actionable insights, supporting evidence-based clinical decisions and hospital planning.
- **Advanced Data Visualization & Reporting:** Designed Power BI and Tableau dashboards to monitor clinical performance, patient outcomes, and financial metrics, facilitating data accessibility and strategic decision-making.
- **Predictive & Statistical Modeling:** Applied statistical and predictive analytics to identify trends and gaps in healthcare delivery, optimize resources, and improve patient outcomes.
- **Financial & Operational Analysis:** Developed financial dashboards to assess hospital expenditures, revenue streams, and cost efficiencies, driving performance improvements.
- **Remote Monitoring & Healthcare Equity:** Led planning and execution of remote diabetes management project by collaborating with physicians, dietitians, and administrative and IT teams tracking medication adherence, nutritional support, and testing compliance, ensuring timely completion and stakeholder alignment.
- **Patient Experience & Research:** Conducted survey-based research to evaluate patient satisfaction, integrating qualitative and quantitative insights to inform hospital administration.
- **Workflow & Performance Optimization:** Collaborated with stakeholders, developed and implemented data-driven strategies to enhance clinical and administrative efficiency, improving patient care and hospital operations.
- **Training & Capacity Building:** Monitored data entry accuracy and compliance and provided training and support to end-users on data analytics, visualization tools, and informatics best practices, ensuring confidentiality and effective adoption of healthcare technologies.

Independent Medical Consultant, Remote, Vissannapeta, AP, India

Jan 2004 - Present

- Provide comprehensive healthcare and treatment plans based on individual needs.
- Advocate for Plant-Based Nutrition and **Health Equity**.
- Offer Nutritional and Exercise Guidance for Optimal **Health Maintenance**.
- Lead Cancer Awareness initiatives, increasing early detection by 15%, as evidenced by a rise in cancer screenings documented in hospital records. Enhanced post-treatment guidance contributed to a 25% reduction in recovery time, as observed in follow-up patient assessments.
- Educate patients and families on food-borne allergies and treatment strategies.
- Guide patients through insurance plans and referrals.

Junior Doctor, Government General Hospital, Vijayawada, Andhra Pradesh, India

Dec 2002 - Dec 2003

- Provided patient care across multiple specialties, performed history-taking, physical exams, diagnostics, and treatment planning.
 - **Managed** outpatient and inpatient services, coordinated admissions, referrals, discharge planning, and follow-ups. Assisted in elective and emergency procedures, including critical care support.
 - **Collaborated with multidisciplinary teams**, including specialists, nurses, and administrative staff.
 - Led health education programs, promoting preventive care, lifestyle counseling, and disease awareness.
 - Maintained medical records, including prescription management and case presentations.
 - Mentored medical students, and assisted in clinical training.
-

EDUCATION

Master of Science in Healthcare Informatics, MSHI - May 2022 - May 2024
Harrisburg University of Science and Technology, Harrisburg, PA
GPA 4.0

Bachelor of Medicine & Bachelor of Surgery, MBBS - Jan 1998 - Dec 2003
Doctor of Medicine (U.S equivalency)
Dr. NTR University of Health Sciences
Siddhartha Medical College, Vijayawada, Andhra Pradesh, India
GPA 3.2

CERTIFICATIONS

- **Research Study Design**, CITI Program; Sept 30, 2023
- **Advanced Nutrition and Human Metabolism**, University of California, Davis; Sept 21, 2022 - Dec 07, 2022
- **Exercise Physiology: Your Body Inside and Out**, Stanford University Online; April 2021 - June 2021
- **Plant-Based Nutrition**, Cornell University; March 2021 - April 2021
- **Nutrition and Healthy Living**, Cornell University; May 2020 - January 2021
- **Evidence-based Optimal Nutrition**, Harvard T.H. Chan School of Public Health; May 2020
- **Nutrition Science Online**, Stanford University; February 2020 - May 2020

KEY SKILLS

- Microsoft Office: Word, PowerPoint, Outlook, SharePoint
 - Data Management / Governance
 - Data Mining
 - EDA & Inferential Data Analysis / Visualizations/ Statistical Analysis
 - Excel, RStudio, SQL, Python
 - Tableau, Power BI - KPIs, Dashboards
 - QlikView/QlikSense (familiar)
 - NLP in Healthcare
 - Health Data Analysis
 - HIPAA / PHI / HIE guidelines
 - Medical Terminology
 - Medical Records
 - EMR/EHR Systems
 - Medical Coding - CPT / ICD / SNOMED / LOINC / RxNorm
 - Clinical Data Annotation
 - Clinical Research / Literature Reviews
 - Statistical Tools / Hypothesis Testing
 - Presentation & Reporting
 - Project & Process Management
 - Lean Six Sigma, Agile, Kanban
 - Workflow Optimization
 - Cross-functional team Collaboration
 - Regulatory Compliance
 - Attention to Detail
 - Organizational & Time Management
 - Leadership, Team Building
 - Public Speaking, Communication
 - Problem-Solving / Conflict Resolution
 - Analytical Thinking
 - Multi-Tasking
 - Adaptability
-

Healthcare Informatics Specialist

drhimabinndu@gmail.com | 916-540-8094 | Granite Bay, CA | [linkedin.com/in/hima-nekkhalapu-39975b1a5](https://www.linkedin.com/in/hima-nekkhalapu-39975b1a5)

RESEARCH/PROJECT MANAGEMENT SKILLS

- **1000-bed Tertiary Hospital EMR Project:** Led a multidisciplinary team in an academic project as a project manager for an EMR selection (Epic, Cerner, AdvancedMD) and implementation plan, focusing on Change management and stakeholder collaboration.
 - **Workplace Improvement Projects:** Implemented Agile and Six Sigma methodologies in multiple healthcare projects, optimizing workplace efficiency and emphasizing continuous improvement in healthcare delivery.
 - **Healthcare Dashboards:** Designed Strategic and Operational dashboards with KPIs for managerial and C-suite members using Microsoft Power BI to inform decision-making.
 - **Financial Models in Healthcare:** Conducted an extensive literature review and explored Value-based care and Futuristic models in healthcare.
 - **Interactive Data Visualizations:** Utilized Tableau to create compelling data visualizations analyzing the automobile recalls data to provide data-driven actionable insights.
 - **Healthcare Data Analysis** Performed exploratory and inferential data analysis to summarize the health data, including socioeconomic status, demographics, and healthcare access, to forecast outcomes and optimize treatment plans and scheduling.
 - **Storytelling with Data:** Analyzed CDC's DNPAO data using Tableau and identified trends in obesity, diet, and physical activity, highlighting correlations associated with socioeconomic disparities.
 - **Alzheimer's Disease Prevalence:** Conducted a Retrospective quantitative analysis on the prevalence of Alzheimer's disease and hospital readmission rates, highlighting potential gaps in healthcare and associated health disparities.
 - **Metabolic Syndrome Risk Factors Study** Conducted a Retrospective quantitative study on Metabolic Syndrome risk factors to gain comprehensive insights into disease prevalence and outcomes.
 - **Lung Cancer Study** Conducted an Exploratory data analysis and predictive analysis using R to study Lung cancer patterns.
 - **Lifestyle factors and Sleep Quality** Conducted ANOVA analysis on sleep health data to examine the impact of lifestyle factors on the Quality of Sleep among various occupations.
 - **Unplanned Hospital Readmissions in California** Conducted a Retrospective study on hospital readmissions data and provided comprehensive insights into the quality and access to care.
 - **Impact of Digital twins on Clinical Decision support** Conducted a comprehensive literature review on digital twins technology and provided valuable insights for clinical decision support.
 - **Remote Diabetes management:** Led a remote diabetes analytics project, analyzing diagnostic trends, medication adherence, and nutrition; delivered strategic insights through Tableau dashboards to support clinical decision-making and enhance patient outcomes.
