WORK EXPERIENCE

UCLA Health, CA

October 2023 – February 2025

Associate Analyst

- Lead the design and management of advanced Power BI dashboards to monitor key operational KPIs, reducing report turnaround time by 40% and enabling real-time data access for stakeholders.
- Collaborate with IT and clinical teams to perform performance trend analysis, supporting data-driven strategic planning and operational improvements.
- Act as a key liaison between analytics and operations teams, streamlining communication, aligning priorities, and driving execution of cross-functional initiatives.
- Spearhead staff training on reporting best practices and EHR tools as an Epic Super User, improving data literacy and empowering teams with self-service analytics.
- Develop and maintain data validation processes to ensure accuracy and integrity of clinical and operational reports, supporting compliance and quality improvement initiatives.
- Translate complex healthcare data into clear visualizations and executive-level summaries, enabling leadership to monitor key metrics, identify trends, and make informed decisions.

Providence St. Joseph, CA

February 2023 – September 2023

Informaticist Intern

- Analyze electronic protected health information (ePHI) extracted from Meditech using Excel PivotTables, Tableau, and Microsoft SQL to improve accuracy in patient count reporting and streamline clinical workflows.
- Design and deploy Power BI dashboards that deliver real-time performance metrics, empowering leadership with actionable insights for resource allocation and operational planning.
- Develop and implement data governance protocols to ensure data integrity, consistency, and security across clinical systems, supporting compliance and informed decision-making.
- Collaborate with clinicians, IT staff, and data teams to assess informatics needs, recommend enhancements to clinical workflows, and support the implementation of health information systems.

Captive Eight, CA

January 2020 - June 2023

Sr. Business Analyst

- Spearheaded the development of automated and scalable reporting tools in Power BI and Salesforce, improving data accuracy, accessibility, and operational transparency for remarketing and operations teams.
- Performed comprehensive root cause analyses to identify factors contributing to project delays and revenue variances, informing corrective actions and driving performance improvements.
- Translated complex operational datasets into actionable insights, resulting in a 30% increase in workflow efficiency and better alignment with business goals.

EDUCATION

CERTIFICATE

Grand Canyon University – Arizona

Master of Science - Health Informatics

University of Phoenix - Arizona

Bachelor of Science - Business Management

Professional Scrum Master - PSM 1

TECHNICAL AND CORE SKILLS

- **Analytical:** Possesses robust analytical and problem-solving skills, with expertise in data analysis and visualization tools including Power BI, Salesforce, Tableau, and Excel. Skilled in Advanced Excel, SQL, and automating reporting frameworks to streamline data-driven decision-making.
