

# Jacob Edkin

(615) 708-9234 • jakeedkin6@gmail.com • www.linkedin.com/in/jacobedkin

## EDUCATION

*The University of Tennessee Knoxville, Tickle College of Engineering,*  
Bachelor of Science in Biomedical Engineering

Knoxville, TN

*Engineering in London Program*

London, England

Month long, fully immersive, study aboard experience filled  
with engineering courses, projects, excursions, and activities

June 2023 - July 2023

## RELEVANT EXPERIENCE

*Cardiovascular Biomechanics Lab Engineering Research Assistant*

March 2024 – May 2025

- Observed the macro level of thrombi before and after tensile testing using dynamic bovine blood hematocrit thrombi and modern grade catheters to test different thrombi removal techniques
- Utilized SolidWorks CAD for hematocrit thrombi creation mold design and MATLAB for data gathering

*AURA (Advanced Undergraduate Research Activity) Internship Program*

May 2024 - August 2024

- Awarded funding towards an individual research project as part of the University of Tennessee
- Conducted research involving in vitro mechanical tensile testing of varying percentage compositions of static bovine blood hematocrit thrombi and presented data analytical findings

## RELEVANT PROJECTS

*Senior Design Canine Restraint Apparatus System*

- Collaborated with biomedical engineering undergraduates by organizing meetings and future progressive plans, evaluating biocompatibility of apparatus materials, and manufacturing a prototype for UT Veterinary Medical Center for future usage and development
- Tested finalized apparatus prototype on UT Veterinary Medical Center provided canine using Institutional Animal Care and Use Committee (IACUC) approval certification
- Presented finalized prototype at University of Tennessee Knoxville Senior Design Showcase

*SolidWorks CAD Motor-Blower Assembly*

- Created parts and assembly for a multi-part motor-blower SolidWorks project
- Constructed digital engineering drawings for each part and assembly

## EXTRACURRICULAR ACTIVITIES

*Biomedical Engineering Society*

August 2021 – May 2025

- Attended monthly informational meetings with biomedical engineering companies and speakers

*Ultimate Frisbee Vice President*

August 2022 - May 2024

- Organized national scale frisbee tournaments on behalf of the University of Tennessee, Knoxville
- Engaged in weekly organizational meetings with the University of Tennessee RecSports

## CERTIFICATIONS & SKILLS

*Career Essentials in Project Management Certification*

Microsoft Office Suite & Teams

*SolidWorks CAD CSWA Certification*

MATLAB & Python Coding

Lean Six Sigma
