

Jagadish chandhar DevOps Engineer

✉ jagadish@jobemails.net ☎ 9453084120 📍 Pittsburgh, PA 🌐 LinkedIn

Profile

Experienced DevOps Engineer with 4+ years of hands-on experience automating and streamlining software deployment processes using tools like Jenkins, Ansible, and Docker on cloud platforms such as AWS and Azure. Proven track record of designing and implementing efficient CI/CD pipelines, managing infrastructure provisioning, and deploying containers. Strong commitment to improving collaboration between development and operations teams.

Skills

Scripting Language — Python, Bash/Shell scripting, Java, Ruby, PL/SQL

Application Servers and Tools — Apache Tomcat, Nginx, jfrogxray, ECR inspector

Framework & Tools — Puppet, Terraform, Github, Jenkins, GitLab CI/CD, Travis CI, CircleCI, AWS Cloud Formation, Azure DevOps, Azure Pipeline, jfrog, Splunk, JSON

Databases — MySQL, MongoDB, CosmosDB, Oracle, PostgreSQL, MS SQL, MS Server, Amazon RDS, Amazon Redshift

Others — Amazon Web Services (AWS), Microsoft Azure, JIRA, Linux, Computer Network, Ansible, Nagios, Maven, Docker, Kubernetes, Docker Swarm, Nexus, ELK, Grafana, Prometheus, Openshift, Openstack, ECR, SonarQube, Helm

Professional Experience

DevOps Engineer, S&P Global

07/2021 – Present | Remote, USA

- Streamlined application deployment and enhanced system reliability by orchestrating Azure cloud integration with Docker, employing DevOps practices for efficient containerization.
- Led a successful migration from AWS to Azure Kubernetes Service (AKS), leveraging advanced DevOps methodologies to optimize scalability and resource utilization, ensuring a resilient and high-performance infrastructure.
- Ensured continuous high availability of Azure infrastructure by adeptly utilizing Virtual Machines (VMs), Azure Blob Storage, and Azure Monitor, incorporating DevOps automation tools for resource management efficiency.
- Collaborated across teams to refine Agile deployment workflows within Azure, implementing DevOps principles and tools, resulting in a significant reduction in time-to-market and improved project efficiency.
- Pioneered the implementation of Infrastructure as Code (IaC) using Terraform, enhancing infrastructure reliability and scalability through DevOps practices.
- Optimized CI/CD pipelines by integrating Jenkins and Azure DevOps, ensuring a streamlined and automated software delivery process in adherence to DevOps methodologies.
- Demonstrated expertise in DevOps automation, employing tools and practices to enhance deployment processes, infrastructure management, and overall system efficiency.

DevOps Engineer, Deloitte

08/2018 – 12/2019 | Hyderabad, India

- Facilitated Agile operations by orchestrating seamless collaboration among development, testing, deployment, and project teams, employing tools such as Slack for enhanced communication.
- Spearheaded the development of Ansible Automation tools, reducing manual tasks and optimizing workflows. Additionally, utilized Ansible for advanced configuration management.
- Innovated the CI/CD workflow on Jenkins by implementing a Docker container creation process for each GitHub branch, integrating Maven and Gradle for efficient build management.
- Demonstrated expertise in AWS resource management using custom Python scripting, covering services like EC2, S3, IAM, and ELB, ensuring a resilient and scalable infrastructure.
- Automated resource provisioning and routine tasks through Terraform, enhancing productivity. Monitored system health with Nagios and implemented ELK (Elasticsearch, Logstash, Kibana) stack for centralized logging and monitoring.
- Architected, developed, and maintained Python scripts for GIT administration and executed the complete continuous delivery cycle with Jenkins, utilizing embedded shell scripts and Gradle for package management.
- Managed Nginx web servers, optimizing performance and ensuring seamless delivery of applications.

Education

Master of Sciences, Wilmington University

01/2020 – 05/2021 | Wilmington, USA

Computer Science

Bachelor of Technology, Andhra University

06/2015 – 05/2019 | Vishakhapatnam, India

Computer Science
