

John Nguyen

Springfield, Pennsylvania, United States | 610-314-9543 | nguyenjohnjr@gmail.com

PROFESSIONAL SUMMARY

Data Analyst specializing in SQL, Python, and data visualization, with a focus on delivering actionable business insights through rigorous data cleaning and validation.

Advanced skills in SQL, Excel, Python, Tableau, and Power BI used to analyze, clean, and interpret data for practical business solutions. Known for a detail-oriented approach that turns complex information into clear recommendations, with a strong interest in finding trends and improving data reporting. Ready to apply a combination of technical know-how and analytical thinking to deliver insights that drive results.

SKILLS

Data Analysis & Visualization: SQL (Advanced Querying & Optimization), Excel (PivotTables, VLOOKUP, Dashboards), Python (pandas, NumPy, Matplotlib), Tableau, Power BI, Data Cleaning & Validation, Data Visualization & Reporting, Machine Learning Metrics (F1-score, ROC curve)

Statistical & Analytical Techniques: Correlation Analysis, Segmentation, Predictive Modeling, KPI Tracking, Data Quality Assurance, Trend Analysis, Cross-Sell Opportunity Identification

Tools & Platforms: Microsoft Excel, Tableau, Power BI, Python, SQL, Google Sheets, Conceptual Dashboard Design

Business & Communication Skills: Business Insight Generation, Report Writing, Presentation Design, Stakeholder Communication, Non-technical Documentation

Project & Workflow Management: Step-by-Step Analytical Documentation, Dynamic Query Logic, Performance Optimization, Dashboard Prototyping, High-Volume Data Handling

Emerging Tools & Interests: Salesforce (learning), ServiceMax (learning)

Soft Skills: Analytical Thinking, Attention to Detail, Time Management, Customer Service, Accuracy Under Pressure, Eagerness to Learn

PROJECTS

Predictive Student Performance Analysis Using Machine Learning

- Identified key predictors of student success, including prior grades, parents' education, and study time, using correlation analysis and bar plot visualizations.
- Built and validated machine learning models (accuracy: 91%), optimizing with precision, recall, F1-score, and ROC curve metrics.
- Documented findings in a clear, step-by-step format for non-technical stakeholders; designed a conceptual dashboard to monitor at-risk students and intervention success.

Advanced SQL Analysis on Banking and University Databases

- Developed SQL queries to answer business-critical questions, such as identifying cross-sell opportunities, segmenting customers, and tracking departmental performance.
- Created complex queries using joins, subqueries, and set operations to identify academic departments meeting multiple strategic criteria.
- Ensured performance and accuracy with optimized queries, thoughtful use of aliases, and dynamic logic (no hardcoding).

STEM Salary Data Cleansing and Analysis

- Addressed data integrity issues by cleaning 60,000+ salary records, standardizing job titles, correcting inconsistencies, and eliminating erroneous zero values.
- Uncovered significant salary disparities by location, providing insights to guide competitive compensation strategies.

- Verified data quality improvements through validation queries, tracking record counts and ensuring consistency across categories.

DoorDash Customer Trend Analysis (Excel Case Study)

- Analyzed 2,000+ customer records to determine the effectiveness of six marketing campaigns, revealing Campaign 6 as the top performer.
- Identified key drivers of customer spending (income, age, family size) and recommended targeted strategies, including loyalty programs and product promotions.
- Created streamlined Excel dashboards with clear charts, high-contrast visuals, and concise summaries to support executive decision-making.

PROFESSIONAL EXPERIENCE

DoorDash

Delivery Driver

Springfield, PA | April 2020 - August 2022

- Delivered 30+ orders per shift with punctuality, ensuring consistent on-time arrivals and maintaining a customer satisfaction rating of 4.8/5.
- Managed order flow and resolved delivery challenges efficiently to uphold DoorDash's reputation for prompt, accurate service and enhance repeat business.

Westbrook Market

Cashier

Clifton Heights, PA | March 2019 - June 2019

- Processed over 30 daily transactions with 99% accuracy, demonstrating exceptional attention to detail and reliability in a fast-paced environment.
- Maintained high standards of customer service while ensuring efficient and error-free handling of all monetary and transactional data.

EDUCATION

Eastern University, St. Davids, PA

MBA/MS in Data Science Dual Degree

GPA: 3.97

The Pennsylvania State University, University Park, PA

Bachelor of Science in Economics (Minor: Psychology)

GPA: 3.82
