PROFFESIONAL EXPERIENCE

iOS Software Engineer | Upwork (Contract Work)

Split App

September 2024 - October 2024

- **Description:** Developed a mobile app for splitting bills and tracking group expenses. The app provides two modes for users to choose from: 'split' for evenly dividing a bill and 'share' for handling complex group expenses where individuals contribute different amounts.
- **Key Features:**
 - Implemented a clean and user-friendly UI using Swift and SwiftUI to match provided Figma designs.
 - Developed the core functionality, allowing users to input participants, bills, and calculate tips or split amounts.
 - Integrated functionality to track who paid for specific expenses, calculate final balances, and settle debts among participants.
 - Used SwiftData to store and manage user inputs and calculations locally.

iOS Software Engineer | Personal Projects

DentalSpeak App

August 2024

- **Description:** Successfully designed, developed, and launched DentalSpeak, an iOS app tailored for dental professionals and students to learn and translate dental terms and phrases between English and Spanish.
- **Key Features:**
 - Flashcards: Implemented interactive flashcards with options to alphabetize, randomize, and save terms for focused study.
 - Favorites: Developed a system for users to favorite specific terms and phrases for quick access.
 - Onboarding: Integrated user-friendly onboarding screens to guide new users through the app's features.
 - Localization: Ensured full support for English and Spanish languages.

Office Manager | River Dental Fayetteville

May 2021 - June 2024

- Managed daily operations of a high-volume dental practice serving 40-50 patients daily.
- Created and analyzed end-of-month reports, focusing on financial metrics such as revenue, lab & supply costs, labor, and production per patient visit to increase profitability.
- Reviewed and improved operational metrics including treatment acceptance rate, re-care reappointment rate, and same-day treatment efficiency.
- Streamlined office processes and provided training for other offices.

Patient Care Coordinator | River Dental Fayetteville

May 2018 - May 2021

- Delivered empathetic patient interactions and tailored treatment plans to improve patient satisfaction and retention.
- Managed schedules for doctors and hygienists to optimize appointment flow and ensure operational efficiency.
- Presented and processed payment options, ensuring seamless financial coordination.

Dental Assistant | Community Clinic Springdale

August 2015 - April 2017

- Assisted dentists during exams and procedures while maintaining organized patient records.
- Managed office inventory, balancing patient care and operational needs within budget.
- Supported the dental team by ensuring proper sterilization and workflow during high-volume periods.
