

Jyothsna Lade

Jersey City, NJ | 510-862-3135 | jyothsnalade9@gmail.com | github.com/JyothsnaLade | linkedin.com/in/jyothsna-lade

EDUCATION

New Jersey Institute of Technology, Newark, NJ
Master of Science in Computer and Information Sciences

Sep 2023 – May 2025

GITAM University, Visakhapatnam, India
Bachelor of Technology in Computer Science and Engineering

Jul 2017 – May 2021

CORE QUALIFICATIONS

- 3+ years of combined academic and industry experience in software development, cloud computing, and data engineering.
- Salesforce expertise in Apex, Lightning Web Components (LWC), data modeling, dashboards, multi-tenant deployments, and CPQ (Configure, Price, Quote) solutions.
- Skilled in end-to-end Salesforce development lifecycle including customization, integration, CRM implementations, CPQ workflows, and sandbox deployments.
- Delivered real-time Salesforce dashboards and reports to surface KPIs and improve monitoring.
- Experience in CI/CD automation using Jenkins and GitHub Actions, reducing release failures by 30%.
- Strong background in AWS cloud services (EC2, S3, Lambda, CloudFormation) and distributed system design.
- Hands-on experience building and scaling data pipelines (500K+ records) with REST APIs, SQL, and cloud infrastructure.
- Proficient in analytics and visualization with Tableau, Salesforce Dashboards, and Python libraries (Matplotlib, Seaborn).
- Experienced with ServiceNow service desk and ticketing systems, including incident management, workflow configuration, and project tracking.
- Familiar with Agile methodologies and cross-functional teamwork to ensure timely project delivery.

TECHNICAL SKILLS

Programming & Systems: Java, Python, C++, C#, Node.js, JavaScript, HTML, CSS, React, Unix, Linux, Golang
Cloud & Big Data: AWS (EC2, S3, IAM, Lambda, CloudFormation, CloudWatch), Hadoop, Hive, PySpark, Docker, Kubernetes
CI/CD & Testing: Git, Jenkins, Visualforce, Jira, GitHub Actions, Integration Testing, Unit Testing, Automation
Databases: MySQL, PostgreSQL, Microsoft SQL Server, Snowflake, DynamoDB, Oracle, NoSQL, SOQL/SOSL
Analytics & Reporting: Tableau, Salesforce Dashboards, Excel (Pivot Tables, VLOOKUP), Matplotlib, Seaborn
Concepts: Data Structures, Object-Oriented Programming, Operating Systems, Concurrency

PROFESSIONAL EXPERIENCE

New Jersey Institute of Technology (NJIT)

Jan 2024 – May 2025

Teaching Assistant

- Facilitated teaching graduate-level coursework focused on AWS cloud services (EC2, S3, IAM, Lambda, CloudFormation).
- Guided students through hands-on labs, projects, and troubleshooting, covering cloud architecture, scalability, and security.
- Mentored 40+ students on best practices for distributed systems deployment and cloud-native design.
- Supported faculty in grading, code reviews, and content development, ensuring high-quality academic standards.
- Conducted weekly office hours to resolve complex cloud deployment issues, fostering problem-solving skills and deep technical understanding.

Accenture

Jun 2021 – Jul 2023

Software Developer (Application Development Analyst)

- Designed and deployed Salesforce components using Apex and Lightning Web Components across a multi-tenant environment.
- Built 20+ custom Salesforce Flows, reducing manual tasks by 35% and streamlining business processes.
- Created dashboards used by 50+ stakeholders for real-time decision-making and performance tracking.
- Boosted data accuracy by 25% through validation rules, data deduplication, and governance controls.
- Streamlined data pipelines handling 500K+ records leveraging data structures, REST APIs, and cloud infrastructure.
- Automated CI/CD pipelines and test frameworks, reducing release failures by 30%.
- Delivered real-time dashboards and reports to surface KPIs, improving monitoring and issue resolution.
- Resolved 100+ monthly Salesforce support tickets using ServiceNow, consistently meeting SLAs and improving response times.
- Mentored junior engineers, provided code reviews, and contributed to Agile sprint planning.

Widhya

Aug 2020 – Dec 2020

Software Developer (AI Research Intern)

- Developed stock price prediction models using TensorFlow, PyTorch, and LSTM deep learning architectures.
- Engineered GPU-accelerated Python pipelines on cloud platforms (AWS EC2) for efficient model training.
- Enhanced model runtime by 25% via CUDA optimizations and hyperparameter tuning.
- Visualized system performance and stability with Matplotlib and Seaborn.

PROJECTS

Stock Price Prediction

Python | LSTM | ARIMA | Random Forest | SVM

- Designed forecasting models using machine learning and algorithms, refined through A/B testing and hyperparameter tuning.
- Evaluated with RMSE and deployed visual dashboards for high-performance analytics.

Thread Pool Implementation

pthreads | Java | C++

- Developed a multithreaded thread pool on Linux, improving task scheduling efficiency by 25% and reducing processing time for concurrent workloads.
- Enhanced scheduling using htop and perf, increasing workload throughput in distributed environments by 15%.

Soul Kitchen Website

Next.js | Tailwind CSS | React

- Built a fully responsive restaurant site with Next.js (TypeScript), Tailwind CSS, and deployed on Vercel with 100% test coverage including automated end-to-end testing using Playwright.
- Implemented GDPR compliance and integrated Mailchimp, improving customer email engagement open rates by 18% while ensuring full data privacy compliance.

New York City Bus Transport Analysis

Hadoop MapReduce

- Analyzed 1.5M+ transit records using Hadoop and PySpark to identify peak traffic patterns.
- Optimized cluster scaling (4 → 9 VMs), reducing runtime by 30% via efficient resource allocation.

Smart Attendance

OpenCV | AdaBoost | Haar Cascade

- Engineered facial recognition system with OpenCV (AdaBoost & Haar Cascade), achieving 95% accuracy and reducing manual attendance effort by 80%.
- Led the design and deployment of a large-scale data-intensive solution, increasing concurrent user capacity 3x and reducing downtime by 25%, resulting in improved platform reliability and user satisfaction.

CERTIFICATIONS

- Salesforce Platform App Builder
- Salesforce Platform Developer I
- Salesforce AI Associate
- Salesforce AI Specialist
