Profile

Dynamic Software Developer with over four years of experience in web and desktop application development. Able to quickly adapt to different programming languages, with hands-on experience in C#, .NET, Java, JavaScript, and PHP, as well as in MySQL and SQL Server database management, along with practical use of Git and Azure DevOps for version control and Jira for task management in Scrum environments. I worked in the US during a winter season, which enhanced my English. I have been studying English since first grade in Chile, demonstrating long-term dedication to language learning.

Professional Experience

Software Developer, Gatblac, Chile (Remote)

May 2022 — Present

Assigned to different clients and projects, providing software support and development according to each company's needs, using a range of technologies and Agile methodologies (Agile/Scrum).

Client: SKC

- Development, integration, and support of APIs, daemons, and applications in .NET,
- JavaScript/jQuery, with SQL Server database administration and iBatis.
- Used Postman for service testing.
- Code and task management in Azure DevOps.

Client: Nuam Exchange

- Participated in financial sector projects, analyzing, adapting, and developing systems to integrate new markets (Peru and currently Colombia) into an existing platform.
- Technologies: Java (Spring Boot, Lombok, Maven), Angular, SQL Server, and some Docker and Payara.
- Collaborated in Agile/Scrum teams, managing tasks with Jira and version control using Git/GitHub.

IT SUPPORT, Clínica Alemana Osorno (Private German Hospital), Osorno, Chile

Jun 2021 — May 2022

- Hardware and Software support for queue management, self-payment systems, and healthcare related software, troubleshooting in SAP, developed .NET applications, and MySQL/SQL Server queries.
- Experience using Freshdesk ticketing platform.
- Worked with Microsoft Admin Center and Azure management panels

Internship Computer Engineer, Clínica Alemana Osorno (Private German Hospital), Osorno, Chile

Sep 2020 — Nov 2020

- Provided hardware and software technical support for the company, resolved software bugs in applications and database stored procedures, and developed applications using SQL Server and VB, including an inventory app integrated with a legacy handheld scanner device.

Food and Beverage Cashier, Sugarbush Resort, Vermont, United States

Dec 2019 — Mar 2020

- Customer service and cashier duties, assisting clients with their purchases.
- Use of point-of-sale system, restocking and product organization.
- Handling of U.S. and Canadian currency in cash and card transactions.
- Verbal communication in English with customers for sales and instructions.
