

Khwaja Mominuddin

Data Analyst

+1- (302) 365-0243 • km.khwaja.mominuddin@gmail.com • Chicago, IL

SUMMARY

Results-driven Data Analyst with 3 years of experience leveraging **Python, SQL, and R** for advanced data analysis, machine learning, and predictive modeling. Expert in creating dynamic **Tableau, Power BI, and Excel** dashboards that enable data-driven decision-making. Proficient in **AWS** and **Azure** cloud platforms, and skilled in managing databases such as **MySQL, SQL Server, and MongoDB**. Adept at **data cleaning** and **wrangling** to ensure the accuracy and relevance of large datasets. Demonstrated success in increasing **data processing efficiency by 25%** and **enhancing data security compliance by 50%**, leading to improved business outcomes. Experienced in **Agile** and **Scrum** methodologies, with a proven ability to deliver actionable insights that drive **strategic initiatives**.

EXPERIENCE

The Cigna Group Data Analyst

Jan 2024 - Present
Chicago, IL

- Analyzed and processed large datasets using Python, R, and SQL, delivering actionable insights that supported key business decisions and initiatives.
- Developed and maintained interactive dashboards and reports using Tableau and Excel to track key performance indicators (KPIs), improving decision-making for stakeholders.
- Cleaned and transformed raw data from multiple sources, ensuring accuracy, consistency, and relevance for advanced analysis.
- Managed and queried databases including MySQL, SQL Server, MongoDB, and PostgreSQL to extract data for in-depth analytics.
- Implemented statistical models to enhance data quality by 25%, and increased security compliance by 50% using AWS and Azure cloud solutions.
- Documented data methodologies and analysis processes for internal knowledge sharing and reproducibility across the team.

Bytecraft System Data Analyst

Mar 2020 - Jul 2022
Hyderabad, IND

- Led Agile projects from planning to deployment, using methodologies like Scrum and Kanban to ensure efficient and timely execution.
- Performed statistical analysis using SciPy and NumPy, delivering data visualizations that directly influenced strategic business decisions.
- Developed 10 custom visualization tools using Power BI, enhancing data accessibility and supporting long-term strategic planning efforts.
- Utilized Python libraries like Matplotlib, Seaborn, and Plotly to create visually compelling data stories for business stakeholders.
- Validated data accuracy across systems using AWS Redshift, S3, and MySQL, improving data integrity by 35%.
- Managed data workflows through Git version control, collaborating with cross-functional teams to push, pull, and merge datasets.

TECHNICAL EXPERTISE

Work Methodologies

Agile & Scrum, Kanban, Lean development

Programming Language

R, Python & SQL

IDE's

Visual Studio Code, PyCharm, Jupyter Notebook

Python Packages

NumPy, Pandas, Matplotlib, SciPy, ggplot2, Scikit learn, PySpark, TensorFlow

Visualization Tools

Tableau, Power BI, Microsoft Excel

Database

MySQL, SQL Server, Mongo DB, PostgreSQL

Cloud Technologies

AWS (S3, RDS, Glue), AZURE Fundamentals

Other Skills & Tools

Data Cleaning, Data Wrangling, Critical Thinking, Presentation Skills, Problem-Solving

Version Control Tools

Git, GitHub

Operating System

Windows, Linux

EDUCATION

University of Illinois Chicago

Jan 2023 - May 2024

Master of Science in Business Analytics

GPA: 3.5/4.0

Jawaharlal Nehru Technological University

Jun 2018 - Aug 2022

Computer Science Engineering

GPA: 3.0/4.0

CERTIFICATIONS

- Advanced Google Analytics
- Project Management Foundation: Teams
- Data Visualization: Empowering Business with Effective Insights by TATA
- Google Tag Manager Fundamentals
- Business Strategy Management by GIBS
