Advanced Excel | MIS Reporting | MySQL | Power BI | Data Visualization | Python

Detailed-oriented Data Analyst with hands – on experience in MIS reporting, data analysis, dashboard creation, and performance tracking. Skilled in Advanced Excel, Power BI, and KPI tracking.

Profile Summary

- ❖ **Leverage 2+ years of data analysis expertise** to develop dashboards, automate reports, and support business decision-making.
- ❖ **Skilled in analyzing** trends, call productivity, and portfolio performance to identify gaps and improvement areas.
- ❖ **Experienced Data Analyst** with a track record of developing dashboards and automating complex reports.
- ❖ Proficient in **Advanced Excel, Power BI** to optimize operational efficiency and track **KPIs**.
- ❖ Strong grasp of **reporting processes, operational monitoring, data management, and performance tracking**, ensuring compliance.
- ❖ Proven **problem-solver and collaborator**, effectively working with cross-functional teams to accelerate delivery, streamline operations, support data-driven strategies.
- ❖ Strong Experience in **data validation, data reconciliation, and quality checks** to ensure accuracy and consistency across reports and dashboards.
- ❖ Capable of analyzing large datasets to identify **business trends, performance patterns, and opportunities for process improvement**.

Core Competencies

Data Analytics & Business Reporting | MIS Reporting & Dashboard Management | KPI Tracking & Performance Analysis
Power BI Dashboard Development | Advanced Excel & Reporting Automation | Data Visualization & Trend Analysis
Operational Monitoring & Productivity Analysis | Collection & Portfolio Performance Tracking | Data accuracy
Attendance & Workforce Performance Management | Business Insights & Decision Support | Report Automation

Technical Skills

- ❖ **MIS & Analytics:** MIS Reporting & Data Analysis, KPI Tracking & Performance Analysis, Collection & Portfolio Analysis
- ❖ **Data Tools :** Advanced Excel (Pivot Tables, Power Query, XLOOKUP, Automation), Power BI Dashboard Development, Data visualization
- ❖ **Databases:** PostgreSQL, MySQL
- ❖ **Technical Basics:** Python

Work Experience

Fortunetech AI | April 2024– June 2026

- ❖ **Reduced** manual reporting effort by **40%** through automation using Excel Power Query and advanced formulas.
- ❖ **Analyze** collection trends, call productivity, and portfolio performance to identify gaps and improve reporting accuracy by 20%.
- ❖ Build **10+ Power BI dashboards** for management reporting, KPI tracking, and operational performance monitoring.
- ❖ **Reduced** report generation time from **4 hours to 1 hour** through report automation and dashboard implementation.
- ❖ **Supported** analysis of 5000+ records monthly to identify productivity trends and operational improvement opportunities.
- ❖ Designed and maintained **KPI monitoring frameworks** to track productivity, attendance quality, and operational performance across teams.
- ❖ Conducted trend analysis to identify performance fluctuations and recommend corrective actions.
- ❖ Collaborated with cross functional stakeholders to gather business requirements and translate them into actionable reporting solutions.
- ❖ Utilized SQL queries to extract, transform, and validate data from multiple sources for reporting and analysis purposes.

Education

- ❖ **B. Tech in Computer Science Engineering (CSE), COER University, Roorkee – CGPA: 8.2/10**
- ❖ **Class XII, Good Shepherd Public School- 82.4%**
- ❖ **Class X, Good Shepherd Public School- 89.2%**
