OBJECTIVE:

Efficient and collaborative healthcare professional with a Doctorate in Occupational Therapy, bringing a clinical background with a strong foundation in health data collection, outcome tracking, and evidence-based analysis. Experienced in interpreting clinical performance metrics, documenting treatment outcomes, and communicating findings to interdisciplinary teams. Eager to apply healthcare expertise and analytical skills in a data-focused environment to support strategic decision-making, performance improvement, and impactful collaboration within the healthcare industry.

SKILLS:

- Proficient in Microsoft Office Suite
- Strong interpersonal skills
- Fast-learning
- Clinical documentation systems training
- Research analysis
- Creative problem solving

EDUCATION:

Doctorate of Occupational Therapy

August 2024

The University of Texas Medical Branch, Galveston, Tx, USA

- Capstone Project: Worked with Harris County Department of Education, designed and produced a video-based curriculum for teachers to support students' emotional regulation and interoceptive needs in classrooms
- Research: Worked as a Student Research Assistant with the OT department, participating in intervention implementation and data collection and coding in two clinical studies conducted by university staff.

Bachelor of Science and Arts in Human Development and Family Sciences

May 2021

The University of Texas, Austin, Tx, USA

- Minored in American Sign Language
- Research: Assisted in the Signed Research Lab, working in a multi-disciplinary team to code data and develop data parameters to be analyzed by project leaders.
- Assisted educational staff in the Priscilla Pond Flawn Child and Family Laboratory by applying leading child development and psychology theories and collecting field data.

EXPERIENCE:

Occupational Therapist

October 2024- March 2025

Aveanna Healthcare, Englewood, CO USA

- Coordinated interventions with multidisciplinary treatment team.
- Meticulously reviewed records and referrals to determine and implement best treatment methods.
- Established compassionate and caring relationships with patients.
- Performed assessments during treatment to determine progress according to goals.
- Applied effective time management techniques to maximize clinical efficiency

Level II Graduate Fieldwork positions

August 2023- April 2024

Pediatric Therapy Center, Houston, Tx; Encompass Health, Pearland, Tx

- Used strong analytical and problem-solving skills to develop effective solutions for challenging situations.
- Proven ability to learn quickly and adapt to new situations.
- Demonstrated a high level of initiative and creativity while tackling difficult tasks.
