SUMMARY

- A results-driven **Business Analyst** with around 4 years of experience in gathering and analyzing business requirements, creating detailed **BRD**, **FRD**, and **SRS** documentation, and driving project success.
- Proficient in using **Excel**, **SQL**, and **Tableau** for data analysis, delivering actionable insights to support strategic decision-making.
- Experienced in implementing **Agile** and **Waterfall** methodologies to ensure timely project delivery and alignment with business goals.
- Strong analytical skills in performing **GAP** and **SWOT** analysis, identifying opportunities for process improvements and driving business optimization.

EXPERIENCE

- Liberty Mutual Insurance, USA | **Business Analyst**

Aug 2024 - Current

 - Developed and implemented a tailored **business requirement collection process** using **Agile methodology** in an insurance company, improving project efficiency and adaptability by 25%.
 - Extracted and analyzed data** from **SQL Server** to generate comprehensive business reports, enabling data-driven decision-making and improving operational efficiency by 15%.
 - Created **interactive dashboards** in **Tableau** to visualize key insurance metrics, providing real-time insights that improved decision-making for senior leadership and reduced reporting time by 30%.
 - Documented customer-specific invoicing and critical policy documents in **MS SharePoint**, streamlining information management for the insurance team.
 - Conducted **gap analysis** to identify technology limitations in existing systems, recommending and documenting enhancements for improved insurance claims processing.
 - Managed **functional** and **non-functional requirements** in **Jira**, ensuring organized project tracking and timely delivery of insurance solutions.
- Space Infolab, India | **Business Analyst**

March 2020 - August 2023

 - Spearheaded the development and implementation of a customized **business requirement collection process** using **Agile methodology**, improving project adaptability and efficiency by 25%.
 - Conducted **data analysis** in **MS Excel**, utilizing **VLOOKUP** and **pivot tables** to provide actionable insights, driving a 20% boost in operational efficiency.
 - Designed and developed interactive **PowerBI dashboards**, reducing **report generation time** by 40% and offering stakeholders **real-time insights** into key performance metrics.
 - Collaborated with **stakeholders** to gather and document **business requirements**, ensuring that project objectives aligned with the organization's strategic goals.
 - Created comprehensive **Business Requirements Documents (BRD)** and **Functional Requirements Documents (FRD)** to effectively guide project development and implementation.
 - Facilitated **workshops** and **JAD sessions** with business users to collaboratively define and prioritize requirements, ensuring alignment between all stakeholders.
 - Managed **cross-functional teams** to ensure alignment with project timelines and requirements, enhancing overall team collaboration and reducing project bottlenecks.

ACADEMIC PROJECTS

Business Requirement Collection and Reporting System Optimization

- Extracted and analyzed data from SQL databases and MS Excel tools (such as VLOOKUP and pivot tables), generating actionable insights that improved operational efficiency by 20% and supported strategic decision-making in insurance operations.
- Designed and implemented interactive Tableau dashboards, reducing report generation time by 40% and providing real-time insights into key performance metrics, while conducting gap analysis to recommend system enhancements, improving claims processing time by 15%.

Customer Feedback Analysis and Process Improvement

- Gathered and documented business requirements through stakeholder interviews, utilizing Excel for data analysis (VLOOKUP, pivot tables) to improve operational efficiency by 20% and creating dynamic Tableau dashboards to enhance decision-making and reporting efficiency by 30%.
- Conducted gap analysis to identify technology limitations and recommended solutions that improved customer feedback processing, while facilitating JAD sessions to prioritize customer-focused features and reduce operational delays by 15%.

TECHNICAL SKILLS

Languages / Documentations: SQL, FRD, BRD, SRS
Project Management Tools: MS Project, MS SharePoint, Microsoft Excel, Microsoft Office, PowerPoint, MS Visio
Visualization Tools / Other Tools: Tableau, Power BI, Figma, Roadmap
Analysis Skills: Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis
Tracking / Software / Other Skills: Jira, Microsoft Visio, JAD, Rational ClearQuest, RTM, UAT, Lucid chart, ETL Process, ELT Process, ERP Systems, Test Outlines & Test Cases, Use Cases & Use Case Mapping, Business Requirements, Requirements Traceability Matrix (RTM), Microsoft Access, Confluence, Smartsheet, Google Analytics, Business Analysis, Requirements Gathering, Data Modeling, Data Visualization, Business Intelligence, Data Analytics, SDLC, Agile/Scrum, Waterfall
Soft Skills: Time management, Leadership and Management, Project Management, Product Management, Problem-Solving, Negotiation, Decision-Making, Documentation and Presentation, Customer Relationship Management (CRM),
Operating System: Windows, Linux, and Mac OS

EDUCATION

Ambassador Crawford College of Business & Entrepreneurship, Kent State | Kent, OH

December 2024

Masters in Business Analytics

Bhavan's Vivekananda College of Science, Humanities & Commerce | Hyderabad, Telangana

Bachelor's in Business Administration | Major: **Financial Business Analytics**
