

MANJU KODALI

DATA ANALYST | BUSINESS ANALYST | POWER BI DEVELOPER
+1 (469) 389-0205 | manjuk.softtech@gmail.com | Irving, TX | [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-oriented Data Analyst/Business Analyst/Power BI Developer with 8+ years of experience delivering data-driven insights and business intelligence solutions across fintech, insurance, and tech sectors. Expert in designing and publishing Power BI dashboards, creating data models, implementing DAX measures, and transforming complex datasets into actionable strategies. Proficient in SQL, Python, Power BI Service, Power Query, Tableau, and Azure Data Services (SQL, Synapse, Data Factory). Adept at stakeholder collaboration, KPI dashboarding, reporting automation, and optimizing processes for efficiency and scale. Experienced in Agile teams, regulatory compliance, and bridging business needs with analytical solutions to support strategic decision-making.

TECHNOLOGY STACK

Data Analysis & Querying: SQL (PostgreSQL, MySQL, T-SQL, Azure SQL), Excel (PivotTables, VLOOKUP, Power Query), Google Sheets, SAS, R, Python (Pandas, NumPy)

Data Visualization & BI: Power BI Desktop & Service (Publishing, Scheduling), Power Query, DAX, Tableau, Looker, Google Data Studio, Qlik Sense, Matplotlib, Seaborn, Plotly

Data Management & ETL: Snowflake, Google BigQuery, MS SQL Server, AWS Redshift, Azure Synapse, dbt, Alteryx, Apache Airflow, Talend, Informatica, Azure Data Factory

Business Analysis Tools: JIRA, Confluence, Microsoft Visio, Lucidchart, Miro, Salesforce, ServiceNow, BRD/FRD creation, User Stories, UAT, GAP Analysis, BPMN

Statistical & ML Tools: SciPy, StatsModels, XGBoost, Scikit-learn, Excel Solver, A/B Testing, Regression Analysis, Time Series Forecasting

Project & Collaboration: Trello, Slack, Microsoft Teams, Zoom, Asana, Monday.com, Notion, SharePoint, Git (basic), Agile, Scrum, Kanban

Documentation & Reporting: PowerPoint, Google Slides, Word, Notion, SOP Writing, Report Automation, Technical Documentation, Data Dictionaries, Stakeholder Presentations

PROFESSIONAL EXPERIENCE

DATA ANALYST | BUSINESS ANALYST | POWER BI DEVELOPER

SQUARE INC – SAN FRANCISCO, CA | NOV 2024 – PRESENT

- Designed and implemented data models to support merchant performance analytics, enabling real-time visibility into payment volume trends, customer churn, and transaction behavior using SQL, DAX, and Power BI.
- Automated reporting pipelines using Python (Pandas, SQLAlchemy) and Google BigQuery, reducing weekly manual reporting time by 70% and improving data reliability across teams.
- Developed and published KPI dashboards in Power BI and Tableau, using Power Query and DAX to support data-informed decisions on pricing, customer acquisition, and feature prioritization.
- Conducted cohort and retention analysis that informed product design changes, increasing platform engagement among SMBs.
- Led root-cause analysis for anomalies in payment data pipelines, partnering with engineering teams to ensure SLA compliance and system reliability.
- Integrated multiple data sources including SQL Server, Azure SQL, and Excel into Power BI dashboards for executive reporting.

SENIOR DATA & BUSINESS ANALYST

LENDINGCLUB – SAN FRANCISCO, CA | JAN 2024 – OCT 2024

- Gathered business requirements from underwriting, compliance, and lending teams to develop analytical solutions for customer risk profiling and loan default prediction.
- Built financial performance dashboards in Power BI using DAX and Power Query, integrating data from Snowflake, enabling executive visibility into NPL rates, DTI ratios, and customer credit scoring trends.
- Extracted and transformed large-scale datasets using SQL (CTEs, window functions) and Python for fraud detection, contributing to improved early risk identification and case prioritization.
- Collaborated with cross-functional teams to launch a new borrower recommendation engine, supporting feature selection and model validation through data exploration and A/B analysis.

- Streamlined monthly reporting processes by developing reusable Python scripts and Excel VBA macros, reducing operational inefficiencies across analytics workflows.
- Provided data support during regulatory audits and compliance reviews by preparing validated reports in accordance with FFIEC and CFPB guidelines.
- Led sprint ceremonies (backlog grooming, reviews) and served as primary point of contact for BI initiatives in Agile delivery teams.

BUSINESS ANALYST – INSURANCE OPERATIONS & INSIGHTS

BAJAJ ALLIANZ LIFE INSURANCE CO. LTD – INDIA | DEC 2019 – JUL 2022

- Defined functional requirements for core insurance products including ULIPs and term plans, ensuring accurate implementation across policy management systems.
- Built Excel-based and Power BI dashboards for tracking premium inflows, policy renewals, claim TATs, and agent productivity, supporting senior management reviews and sales forecasting.
- Performed policy lapse rate and persistency analysis using SQL and Excel PivotTables, helping improve customer retention strategies and agent training focus.
- Worked with actuarial and product teams to evaluate performance of life insurance products using historical data and competitor benchmarks.
- Led UAT planning and execution for CRM and policy servicing module upgrades, documenting defects, enhancement requests, and user feedback.
- Standardized reporting templates across branches, improving MIS accuracy and enabling faster decision-making for 80+ regional managers.
- Managed internal compliance data reporting for IRDAI submissions, ensuring timely delivery and zero penalty occurrences during audits.
- Supported digital transformation projects by mapping manual workflows and identifying automation opportunities within policy servicing and claims.

BUSINESS ANALYST – MIS & SUPPORT SERVICES

ICICI PRUDENTIAL LIFE INSURANCE CO. LTD. – INDIA | JAN 2017 – NOV 2019

- Delivered high-accuracy MIS reports covering policy sales, renewals, claim status, and agent commissions using SQL queries, Excel dashboards, and Power BI.
- Created and maintained policy and agent performance tracking tools, reducing manual processing time by 40% and improving sales team insights.
- Acted as liaison between business teams and IT for resolving data discrepancies in the CRM system, facilitated issue resolution through Jira and documentation.
- Assisted in documentation of SOPs and training manuals for end-users transitioning to new reporting platforms and CRM interfaces.
- Conducted training sessions for branch staff on interpreting reports and using internal tools effectively, improving adoption of data practices across branches.
- Participated in weekly performance review calls and prepared dashboards highlighting key business metrics and risk flags for senior leadership.

CUSTOMER CARE ASSOCIATE/CASHIER

SHOPPERSSTOP LTD – INDIA | DEC 2015 – SEP 2016

- Processed high-volume transactions with 99.9% accuracy, utilizing POS systems to manage billing, returns, and inventory data while ensuring data integrity and customer satisfaction.
- Generated daily sales reports and reconciled cash drawers, providing actionable insights on peak sales periods and customer purchasing trends.
- Collaborated with store supervisors to analyze customer flow data and optimize checkout operations, reducing queue times and improving overall service efficiency.
- Conducted real-time issue resolution for billing discrepancies and customer complaints, ensuring quick escalation and improving service KPIs.
- Supported promotional campaigns by updating system-level pricing and discount codes, ensuring alignment between marketing initiatives and front end operations.

EDUCATION

Master of Science in Advanced Data Analytics | GPA: 4.0/4.0

University of North Texas – Denton, TX | Aug 2022 – December 2023

Master of Business Administration (Finance & Marketing)

DJR Institute of Engineering and Technology, JNTUK - Andhra Pradesh, India | Aug 2013 - January 2016

Bachelor of Computer Applications (MSCA)

S.D.M Siddhartha Mahila Kalasala, A.N.U - Andhra Pradesh, India | Jul 2007 - April 2010

CERTIFICATION

- Microsoft Certified: Azure Data Engineer Associate
- Udemy: Gen AI for Data Engineering and Professionals
