Mautise Boswell

4600 N Kenmore Ave
Chicago, IL 60640

815.823.7027

bmautise@yahoo.com

Motivated and adaptable professional with a background in biology and a strong interest in cybersecurity and data science. Currently expanding technical skills through coursework and hands-on learning in SQL and data analytic. Eager to apply problem-solving abilities and analytical thinking to a tech-driven role while continuously learning and growing in the field.

Skills

Data Analytic, SQL, Cisco, Diagnostic Commands, Secure PC and Network, Linux, Networking Basics, Problem-Solving, Team Collaboration, Critical Thinking, Adaptability, Quick Learning.

Experience

Rush University Medical Center / Patient Care Tech

FEBRUARY 2023 - PRESENT, CHICAGO

- Monitor patient vitals, including blood pressure, heart rate, and blood sugar levels, ensuring accurate data recording.
- Collaborate with medical staff to provide high-quality patient care in a fast-paced environment.
- Maintain patient records and documentation with attention to detail, supporting data-driven decision-making.
- Adapt quickly to changing patient needs, demonstrating flexibility and a commitment to care.
- Communicate patient needs and observations to the medical team to ensure timely care and quality service.

Amazon / Learning Ambassador

APRIL 2020 - OCTOBER 2022, CREST HILL

- Trained and mentored new associates on company procedures, safety protocols, and operational systems.
- Developed problem-solving skills by troubleshooting workflow issues and optimizing training processes.
- Utilized data tracking tools to monitor trainee progress and improve learning outcomes.
- Assisted with troubleshooting and resolving defective items
- Adapted training methods based on individual learning styles to enhance efficiency and retention.

Education

University of Illinois- Chicago / Bachelor of Biology

AUGUST 2020 - MAY 2023, LOCATION

Developed strong problem-solving and analytical skills through biological research, data analysis, and Python-based data interpretation in evolutionary biology.

Purdue University / Master's of Computer and Information Technology

MARCH 2025 -May 2027, WEST LAFAYETTE

Developing expertise in data analysis, visualization, and computational problem-solving, with a focus on extracting insights from complex datasets using tools like Python, SQL, and machine learning techniques.

Awards

Linux Essential Certification, Peter V. Conroy Prize for Outstanding Promise in French studies.
