Education

Clarkson University

Potsdam, NY

May 2025

- Bachelors of Science in Computer Science, Minor in Business
- GPA: 3.15/4.00 (In Major GPA: 3.40/4.00) | Dean's List: Fall 2022 - Spring 2025

University of Strathclyde

Glasgow, Scotland

Fall 2024

- Study Abroad/Erasmus

Relevant Coursework: Operating Systems, Networking, Database Systems, Deep Learning, Artificial Intelligence

Certifications: AWS Certified Cloud Practitioner

Experience

Mutual of America (MoA) - Solution Architecture Intern

May 2024 - July 2024

- Recreated Salesforce landscape using ArchiMate and TOGAF framework to prepare for cloud migration.
- Documented inputs/outputs for all company API endpoints in Excel, creating an in-depth reference.
- Designed comprehensive data flow diagrams for API endpoints and integrations in ArchiMate, simplifying communication between technical and business stakeholders.
- Gained proficiency in TOGAF framework, ArchiMate, and common solution architecture tools; acquired knowledge of microservices architecture and Python 3 best practices via Pluralsight courses.

Duck Donuts - Staff Member

March 2018 - August 2024

- Delivered exceptional customer service to 100+ daily customers.
- Monitored product quality through adherence to company standards, ensuring customer satisfaction.

Ed Farrelly Landscaping - Landscaper

Summers 2022 - 2023

- Delivered landscaping services to 40+ clients, consistently meeting deadlines and satisfying the client.
- Maintained high client trust by completing projects independently, receiving repeat jobs from 80% of clients.

Venue Smart - Supervisor, Lollapalooza, Chicago

August 2023

- Managed a team of 10 staff to maintain venue cleanliness for 400,000+ attendees.
- Facilitated team cohesion by resolving daily conflicts and fostering effective communication.

Project Based Experience

Recipe Buddy - Full Stack Developer (MERN Stack), Team Lead

Spring 2023

- Built a recipe website using MongoDB, Express.js, React, and Node.js
- Developed server-side endpoints to handle recipe data storage, retrieval, and user interactions.
- Created navigation features with ReactJS, integrated with a Node.js/Express backend and MongoDB database.
- Delivered weekly progress reports and maintained effective communication between the client and a 5-person development team.

Frame Me - Co-Developer

Fall 2024

- Co-developed an accessibility-focused desktop application enabling visually impaired users to take well-framed self-portraits using real-time facial recognition and guided camera positioning.
- Implemented computer vision features in Python using OpenCV, MediaPipe, and a YOLOv8 model to detect face location and provide directional guidance (audio via Pyttsx3, speech recognition for input).
- Collaborated with a teammate to integrate object detection, speech-to-text, and audio feedback, ensuring inclusive usability and improving alignment accuracy for target framing positions.

Technical Skills

Languages: Python, C++, C, Java, JavaScript, HTML, CSS

Web Technologies: Git, Github, Microsoft Office Suite, React, TensorFlow, Keras

OS: Windows, Linux (Ubuntu Desktop, Ubuntu Server), Proxmox

Interests: Home Labbing, System Maintenance, Custom Automation Scripting
