EDUCATION

Rutgers University - New Brunswick

Bachelor of Arts (BA), Computer Science

New Brunswick, NJ

May 2026

Relevant Coursework: Data Structures, Discrete Structures I & II, Intro to Computer Science, Computer Architecture, Linear Algebra, Data Management for Data Science, Databases, Software Methodology, Principles of Programming Languages

Middlesex College

Associate of Science (AS), Business Administration

Edison, NJ

May 2023

Relevant Coursework: Business Law, Financial Accounting, Managerial Accounting, Macroeconomics, Microeconomics, Public Speaking, Statistics

EXPERIENCE

Ericsson

Software Engineering Intern

Remote, NJ

May 2025 - August 2025

- Collaborated with solution architects and cross-functional teams to gather requirements and support end-to-end system integration projects
- Assisted in configuring, testing, and deploying hardware/software components, including writing and validating automation scripts
- Supported production rollouts, performed upgrades, and contributed to documentation and troubleshooting to ensure seamless integration using agile methodologies.

Headstarter AI

Software Engineering Fellow

New York, NY

July 2024 - August 2024

- Developed 3+ AI apps and APIs using NextJS, OpenAI, Firebase, and Vercel, showcasing the ability to learn and apply new technologies in real-time project settings similar to mobile app development.
- Received coaching from engineers at Amazon, Bloomberg, and Capital One on Agile methodologies, CI/CD, Git, and microservice patterns, reinforcing a commitment to continuous learning and professional mentorship

Shell

Data Analyst Co-Op

Edison, NJ

June 2023 - May 2024

- Extrapolated and consolidated consumer data and market data from global gas markets to set precise price points, make decisions and improve efficiency by 50%
- Oversaw inventory management, procured inventory weekly, and managed vendor relationships, making sure all deliveries were properly delivered and inventory was correctly updated

PROJECTS

Computer Vision Face Detection | (Python, CV2)

- Developed a real-time face detection system using OpenCV and Haar cascades classifier to identify faces with a minimum size of 40x40 pixels

Personal website | (HTML, CSS, JavaScript, GitHub)

- Built a personal website using HTML, CSS, and JavaScript and deployed it to GitHub Pages

Election Analysis | (Java)

- Created a Java program that took in CSV files as input and analyzed data to produce election results for all 50 states for different years and candidates, with a custom UI and interactive display to manipulate the years, states, and elections.

LEADERSHIP

Tawheed Dawah Center

Volunteer

April 2022 - Present

- Assisted in organizing monthly religious programs and activities for the organization
- Promoted community engagement through consistent outreach and participation in events
- Contributed to the development of initiatives that fostered community growth and involvement

IJTEMA

Volunteer

September 2022 - Present

- Contributed to planning and execution of the organization's annual religious gathering attended by 1,000+ participants
- Assisted with logistics coordination, volunteer management, and event setup
- Supported attendee registration, crowd flow, and on-site operations to ensure a smooth experience
- Collaborated with team members to resolve issues quickly and maintain event organization and safety

Ericsson

Campus Ambassador

August 2025 - Present

- Bring awareness to college campuses about opportunities at Ericsson and provide answers to students seeking potential employment with Ericsson
- Create events that represent the company in a positive manner and market the brand Ericsson has created

SKILLS

Programming Languages: Java, JavaScript, Python, HTML/CSS, C, SQL

Frameworks/Libraries/Databases: PostgreSQL

Developer Tools: Git, Vercel, Firebase, VS Code, Cursor, Kubernetes, IntelliJ
