

MUTHUSARANYA SIVASUBRAMANIAM

SOFTWARE ENGINEER

Vernon Hills, IL 60061 • 4695367374 • s.muthusaranya@gmail.com • WWW: [Bold Profile](#)

Professional Summary

- Dynamic Software Engineer with a proven track record at Aspire Systems, specializing in object-oriented programming and database management. Developed scalable code and reusable components, enhancing system performance and reducing development time. Established effective team communication, fostering collaboration and driving project success while implementing robust testing and debugging strategies. I am more passionate on learning new things.
- I've been volunteering as a Tamil language teacher for the past 4 years at Gurnee Tamilpalli. Developed lesson plans and educational materials every week. Organized Cultural events for a big group of kids and assisted many school activities. I taught lessons in a fun and creative way that helped students enjoy learning and build a great bond with me.

Work History

1. Software Engineer, 09/2011 to 09/2014

Aspire Systems – Chennai, India

- Developed scalable and maintainable code, ensuring long-term stability of the software.

- Integrated new technologies into existing systems, increasing capabilities and improving overall performance.
- Developed reusable components that significantly reduced development effort on multiple projects.
- Implemented effective debugging strategies, resulting in fewer software defects and increased reliability.
- Established efficient communication channels within the team, leading to better collaboration among members during project development phases.

Projects

1. Ooma – Telecom Service

Client: Ooma Telecom Service Provider, USA

Duration: 2.6 years, Role: Software Developer, Software: Java, Struts and Hibernate and Python,

Database: MySQL

- Contributed to the development of multiple modules as part of an application enhancement project.
- Actively participated in identifying and fixing bugs within tight deadlines to ensure smooth application performance.
- Engaged in thorough testing and resolution of various issues across different modules.
- Explored and evaluated new technologies to enhance project capabilities and performance.
- Conducted manual testing and prepared comprehensive test cases to ensure high-quality deliverables.
- Shared knowledge and best practices with team members to promote continuous learning and team efficiency.
- Prepared technical documentation and delivered it to the client for each relevant feature or module.
- Created detailed release documents for every commit as part of the release process.

2. Timelink

Client: Timelink, USA

Duration: 6 months, Role: Developer, Software: Java, Python, Database: Oracle 10g,

- Understood business requirements and developed features adhering to quality standards and organizational procedures.
- Actively involved in the full software development life cycle (SDLC), including analysis, design, coding, and testing.
- Provided support to team members by helping them understand complex issues and business logic.
- Delivered quick and effective solutions by working dedicatedly to resolve critical issues in a timely manner.

2. Teacher as a Volunteer, 09/2022 to present

At Tamilpalli, Gurnee.

- I'm volunteering as a Tamil language teacher at Gurnee Tamilpalli for the past 4 years.
- Designed lesson plans for each and every class and made learning enjoyable for students, resulting in strong student connections and enthusiasm for the subject.
