

# Naga Shivathmika Kancharla

Springfield, IL (open to relocation) | +1 217-761-7370 | [nagashivathmika3@gmail.com](mailto:nagashivathmika3@gmail.com) | [linkedin.com/in/nagashivathmika/](https://www.linkedin.com/in/nagashivathmika/)

## Summary

Entry-level Data Analyst with practical experience in building business-ready dashboards and analytics using SQL, Python, R, Power BI, and Excel. Skilled in turning messy, real-world datasets into clear insights used for reporting, planning and business decision-making. Actively seeking entry-level data analyst roles where analytical and reporting skills can contribute to data-driven teams.

## Skills

|                                 |                                                                                             |
|---------------------------------|---------------------------------------------------------------------------------------------|
| Programming Languages:          | Python, SQL, R                                                                              |
| Databases & Data Systems:       | MySQL, MongoDB, PostgreSQL                                                                  |
| Cloud:                          | AWS, Azure ML Studio                                                                        |
| Machine Learning & Frameworks:  | Scikit-learn, Pandas, NumPy, Seaborn, Matplotlib                                            |
| Data Analytics & Visualisation: | Power BI, Excel (Pivot Tables, Power Query), DAX, Data visualisation, KPI Reporting         |
| Business & Analytical Skills:   | Data Cleaning, Data Quality Assessment, EDA, A/B Testing, Trend Analysis, Analytical Skills |

## Projects

### Lung cancer survival & treatment analysis dashboard | Excel, Data Visualization, EDA | [LINK](#)

- Built an interactive Excel dashboard **analyzing 2,000+ patient records** to explore survival rates by stage, treatment, and region, enabling stakeholders to spot disparities across demographics.
- Cleaned and validated datasets using advanced Excel functions, **improving data quality and accuracy by 35%**.
- Performed statistical and exploratory data analysis (**EDA**) to identify key survival factors, including BMI, smoking status, and comorbidities.
- Enhanced stakeholder reporting **efficiency by 40%** through dynamic dashboards that streamlined medical data interpretation and trend communication.

### Lay Offs data analysis | MySQL, SQL Workbench | [LINK](#)

- Processed and standardized 12,000+ workforce records** using CTEs, joins, and date conversions, increasing dataset **reliability by 25%**.
- Designed analytical SQL queries to uncover top industries and companies impacted by layoffs, identifying 100% workforce reductions.
- Automated SQL-based reporting pipelines, **reducing manual reporting time by 30%** and improving scalability.
- Delivered insights that informed HR strategy, risk evaluation, and workforce planning across industries.

### Retail Sales Performance Dashboard | Power BI, SQL | [LINK](#)

- Built an interactive dashboard analysing **\$456k in revenue across 1000 transactions** and 2,514 units sold.
- Used SQL for data cleaning and exploratory analysis, ensuring data integrity and consistency across all fields.
- Delivered insights** on peak sales periods, top-performing product categories, and customer demographics.
- Automated reporting workflows, **reduced manual effort by 35%**, enabling **faster, data-driven decisions in inventory planning and targeted marketing**.

### Customer Churn Analysis & Revenue Impact Dashboard | Power BI, DAX, Analysis | [LINK](#)

- Designed and developed a three-part Power BI dashboard **analysing 7000+ customers**, revealing an overall **churn rate of ~36%** through an executive-level churn overview.
- Analysed churn rates across customer segments, identifying early-tenure and monthly customers as the highest-risk segments.
- Quantified churn's business impact by calculating **monthly revenue loss** and comparing **average charges of churned vs retained customers using DAX**.

## Education

|                                                                                        |                     |
|----------------------------------------------------------------------------------------|---------------------|
| <b>University of Illinois at Springfield</b> - Springfield, Illinois                   | Aug 2024 - Dec 2025 |
| <b>Degree:</b> Master of Science in Computer Science.                                  | GPA: 4.0            |
| <b>Relevant coursework:</b> Data Visualization, Advanced Database Management Systems   |                     |
| <b>Osmania University (MVSU)</b> - Hyderabad, India                                    | Aug 2020 - May 2024 |
| <b>Degree:</b> Bachelor of Engineering in Computer Science.                            | GPA: 3.58           |
| <b>Relevant coursework:</b> Machine Learning, Database Systems, Networking, Statistics |                     |

## Leadership & Volunteer Work

### Deputy Treasurer, CSSA - MVSU Engineering College (2023 - 2024)

- Managed a \$2000+ budget; improved tracking accuracy by 40% through Excel automation.

### Deputy Director of Alumni Affairs, CSSA - MVSU Engineering College (2022 - 2023)

- Organized 300+ attendee networking events; expanded engagement reach by 25%.
