

Nikhil Vanam | Business Analyst

Milwaukee, WI | +1 (414) 340-1914 | nikhilvanam20@gmail.com | [LinkedIn](#)

SUMMARY

Analytical Business Analyst with 4+ years of experience transforming business requirements into actionable insights and efficient technical solutions. Skilled in requirements gathering, process optimization, data analysis, and stakeholder collaboration. Proficient in SQL, Excel, Power BI, Tableau, JIRA, and Confluence, with expertise in AI-driven analytics, process automation, and predictive modeling using Python and generative AI tools (ChatGPT, LangChain, Power Automate AI). Adept at leveraging data and AI innovations to streamline workflows, improve decision-making, and drive measurable business value in agile environments.

SKILLS

Business Analysis & Strategy: Requirements Gathering & Elicitation, Business Process Modeling (BPM/BPMN, UML), Stakeholder Management, Use Case Development, Gap & Impact Analysis, SWOT Analysis, Business Case Development, Change Management, Agile & Waterfall Methodologies, Product Backlog Management, Process Optimization

Data Analysis & Visualization: SQL (Joins, CTEs, Aggregations), Excel (Advanced – Pivot Tables, Power Query, Macros), Tableau, Power BI, Looker, Data Cleaning & Transformation, Data Modeling, KPI Definition & Tracking, Predictive Analytics, Statistical Analysis, Data Interpretation, AI-driven Insights

AI & Automation: Generative AI (ChatGPT, Gemini, Claude), Prompt Engineering, LangChain, OpenAI API Integration, Process Automation (Power Automate AI, UiPath), Python (Pandas, NumPy, Matplotlib), Intelligent Document Processing (IDP), RPA Concepts, AI Workflow

Tools & Technologies: JIRA, Confluence, Microsoft Visio, Trello, Asana, Lucidchart, Salesforce (Basic), ERP Systems (SAP, Oracle), CRM Platforms, Postman, Swagger, GitHub, MS Office Suite, SSIS, ETL Concepts

Documentation & Communication: BRD, FRD, SRS, User Stories, Acceptance Criteria, Change Requests, Workshop Facilitation, Cross-functional Collaboration, Executive Reporting, Process Documentation

Interpersonal & Soft Skills: Analytical Thinking, Data Storytelling, Negotiation, Presentation Skills, Conflict Resolution, Stakeholder Engagement, Verbal & Written Communication, Problem Solving, Critical Thinking, Attention to Detail, Adaptability, Time Management, Continuous Learning, Active Listening

EXPERIENCE

Business Analyst, Synchrony Financial | WI

Jun 2024 – Present

- Partnered with product, risk, and analytics teams across 5 departments to document precise business requirements, enhancing alignment between credit workflows and reporting systems and reducing data discrepancies by 20%.
- Designed and maintained advanced SQL queries tracking financial KPIs, improving data visibility and enabling leadership to make 15% faster decisions on lending and customer retention strategies.
- Built Power BI dashboards integrating five data sources, reducing manual reporting time by 40% and providing leaders with insights on delinquency trends and customer behavior patterns.
- Automated recurring financial reporting using Power Automate AI and Python, eliminating 25 hours of manual work monthly and improving reporting accuracy across multiple business units.
- Coordinated sprint planning, backlog refinement, and daily stand-ups for a 10-member Agile team using JIRA and Confluence, ensuring timely delivery and clear traceability of all requirements.
- Conducted six stakeholder workshops to define business objectives and gather feedback on prototypes, aligning deliverables with enterprise data strategy and regulatory mandates.

Business Analyst, All State | WI

Jan 2024 – Jun 2024

- Partnered with claims and underwriting departments to gather detailed automation requirements, reducing claims adjudication cycle time by 25% and improving interdepartmental process visibility.
- Authored BRDs and FRDs capturing detailed business logic and data mappings, ensuring accurate migration of six legacy systems into the new cloud-based insurance platform.
- Utilized Tableau and Excel to analyze over 100,000 claim records, identifying inefficiencies and generating insights that reduced claims handling timelines by 15%.
- Led UAT planning and test case development for 30+ business features, achieving 98% defect resolution before deployment and improving overall user satisfaction post-release.
- Produced comprehensive workflow diagrams and use cases in Lucidchart and Visio, providing clarity for over 50 stakeholders and aligning technical design with operational needs.
- Implemented automation scripts via Power Automate AI, enhancing policy issuance workflows and cutting processing time by 30% across three business lines.
- Managed 20+ change requests through JIRA and Confluence, ensuring version control, documentation accuracy, and controlled release cycles during system enhancements.

Business Analyst Associate, Bright mind Technologies | India

Jan 2020 – Apr 2022

- Supported senior analysts in eliciting and validating requirements for automation projects serving five international clients, ensuring project deliverables met functional and business expectations.
- Created detailed process flow diagrams and traceability matrices using Visio, improving cross-team understanding and reducing requirement gaps by 25% across development teams.
- Built Power BI dashboards analyzing 15+ operational KPIs, enabling leadership to visualize business trends and accelerate decision-making by 20%.
- Executed SQL-based data validation for 500,000+ records, ensuring report consistency and accuracy across multiple data warehouses and client systems.
- Participated in agile ceremonies with a 7-member team, supporting backlog refinement and sprint reviews to ensure timely progress tracking of analytics deliverables.
- Coordinated five user feedback sessions, providing analytical recommendations that improved post-deployment adoption rates by 25% across enterprise applications.

EDUCATION

MS in Information Technology Management, Campbellsville University

Jan 2023 – Jun 2024
