## Business Analyst

📞 +1 (940) 977-2457    ✉ padmasreemanda8@gmail.com    🔗 <https://www.linkedin.com/in/padma-sree-manda>    📍 Dallas, TX

## SUMMARY

Business Analyst with 3+ years of experience in the finance and insurance sectors, delivering data-driven solutions that improve reporting accuracy, streamline processes, and support strategic decision-making. Skilled in requirements gathering, stakeholder management, and performance analysis using tools like SQL, Power BI, Excel, and JIRA. Known for optimizing month-end close cycles by 25%, automating reporting reducing manual errors, and supporting compliance initiatives through impactful dashboards and documentation. Adept at bridging the gap between business needs and technical teams in Agile environments.

## EXPERIENCE

### Business Analyst Intern

#### KPMG

📅 02/2025 - Present    📍 Dallas, TX

- **Analyzed over 5+ core banking and insurance processes**, identifying inefficiencies and proposing **automation or optimization solutions**, improving process efficiency by up to **15%**.
- **Documented and translated business requirements** into technical specifications for financial transformation projects involving **budgeting, reporting, and regulatory compliance**.
- Supported **data validation and financial modeling** for insurance risk assessments and loan portfolio analysis using **Excel, SQL, and Power BI**, improving reporting accuracy by **20%**.
- Conducted **gap analyzes** between current vs. target finance operations, helping shape **operating model changes** for Tier-1 banks and leading insurers.
- Prepared **client-facing deliverables** including **process flow diagrams, impact analysis reports, and control frameworks** to support compliance with IFRS and Solvency II.
- Engaged with **stakeholders across risk, compliance, and finance functions**, ensuring alignment between business needs and digital solutions.

### Business Analyst

#### Cognizant

📅 10/2021 - 07/2023

- Spearheaded requirements gathering and business process analysis for high-impact financial projects, influencing over **\$5M in annual revenue** for banking and lending clients.
- Worked closely with stakeholders across investment and retail banking divisions to define and document business requirements, leading to a **30% improvement in processing efficiency**.
- Created detailed BRDs, FRDs, process flow diagrams, and use cases, ensuring 100% clarity between business and technical teams on financial application enhancements.
- Collaborated with data engineering teams to validate financial data pipelines and reporting systems; utilized **SQL and Excel** to analyze datasets exceeding **1 million records**, identifying compliance gaps and reconciliation mismatches.
- Acted as a strategic liaison between product owners, developers, and QA teams to streamline delivery of fintech solutions—reducing go-to-market timelines by **20%**.
- Supported UAT across 3 major platform releases, leading defect triaging and test case validation that ensured **99.9% accuracy** in transactional reporting modules.
- Conducted workshops with global stakeholders to align functional requirements with evolving US regulatory standards, helping reduce audit findings by **40%**.
- Drove Agile project ceremonies (sprint planning, retrospectives, demos) as part of a 10-member Scrum team, consistently delivering features ahead of schedule.
- Leveraged Tableau dashboards to visualize financial KPIs, enabling leadership to make data-driven decisions that enhanced client satisfaction and operational oversight.

## EXPERIENCE

---

### Trainee Business Analyst

#### Dell Technologies

📅 06/2020 - 10/2021    📍 India

- Analyzed over **100,000+ rows of financial data** using **Microsoft Excel** and **SQL** to support quarterly budgeting and forecasting processes, improving accuracy by **15%**.
- Developed and maintained **Power BI dashboards** to track financial KPIs across departments, reducing manual reporting efforts by **30%**.
- Automated recurring financial reports using **Excel macros**, cutting report generation time from **3 hours to 20 minutes**.
- Participated in the design and documentation of finance system enhancements using **JIRA** for issue tracking and **Confluence** for collaborative documentation.
- Supported senior analysts in performing **ROI analysis** on proposed technology investments, contributing to a **10% reduction in unnecessary capital expenditures**.
- Leveraged **Tableau** to visualize cash flow trends and variance analysis, enabling leadership to make faster, data-backed decisions.
