PROFESSIONAL EXPERIENCE:

Agile Business Analyst

RefineAi

March 2024 – Present

- Collaborated with stakeholders to gather and refine requirements, write user stories, assist in facilitating Scrum ceremonies, and work closely with the Product Owner to deliver data-driven solutions for the continuous improvement of our AI powered resume builder.
- Conducted in-depth analysis of business processes and user needs to identify opportunities for product enhancements and drive efficient solutions.
- Developed and maintained detailed documentation, including workflows, use cases, and wireframes, to support clear communication across cross-functional teams utilizing Jira, Figma, and Miro.
- Monitored and evaluated project progress, providing insights and recommendations to ensure alignment with business goals and timelines.
- Proactively identified and removed obstacles that hindered team progress, leading to improved productivity and ensuring timely delivery of sprint commitments.
- Assisted in prioritizing the product backlog, ensuring that the most valuable features are delivered in alignment with stakeholder expectations and market trends.
- Successfully facilitated key Agile ceremonies such as daily stand-ups, sprint planning, retrospectives, and reviews, ensuring teams remained focused on sprint goals and adhered to Agile best practices

Business Solutions Analyst | Engineering

RES AMERICAS

Aug 2019 – Feb 2024

- Conducted comprehensive research on various analytical models, and possible new functionalities to enhance system efficiency and meet business requirements.
- Collaborated closely with the data team to ensure high-quality and relevant data was available, and successfully integrated the algorithm into existing systems, enhancing the product's personalization capabilities.
- Promoted collaboration between teams and departments to enhance communication and transparency across the organization.
- Prioritized critical tasks and initiated work ahead of schedule, ensuring the product launch remained on track and aligned with key business objectives.
- Collaborated with stakeholders to elicit and document business and technical requirements for large-scale projects, ensuring alignment with overall business strategy and objectives.
- Led change management initiatives, ensuring smooth transitions during project phases by preparing teams and stakeholders for new processes, tools, and technologies.
- Developed and maintained comprehensive project reports and dashboards, providing stakeholders with clear visibility into project status, risks, and key performance indicators (KPIs).

- Conducted detailed analysis of field data to identify patterns, trends, and potential issues, providing actionable insights to improve system performance and reliability.
- Performed rigorous testing and validation of systems and equipment, ensuring they met technical specifications and operational standards. Documented results and provided feedback to engineering teams for continuous improvement.
- Authored comprehensive user manuals and technical documentation ensuring clarity and usability for end-users and cross-functional teams.
- Collaborated with engineering, operations, and quality assurance teams to address issues, ensuring alignment between stakeholders and tech teams.
- Identified opportunities for product improvement through market research, client interviews and data analysis, recommending and implementing changes that enhanced product quality.

Student Assistant

Mar 2014 to Dec 2017

Texas Tech Health Science Center

- Assisted in the collection, organization, and analysis of research data, contributing to reports and presentations that informed key decisions within the department.
- Served as a liaison between students, faculty, and administrative staff, facilitating clear communication and ensuring that stakeholder needs were met efficiently.
- Prepared and maintained detailed records and documentation for various projects, ensuring accuracy and compliance with institutional standards. Created reports that summarized findings and supported department initiatives
