

Rajat Patil

Software Developer

NC | rajat.p@myitjobemails.com | 301-284-8430

SUMMARY

- Around 3 years of experience as a Software Developer in analytical programming using Python with skills in analysis, design, development, testing, and deploying software applications.
- Good experience in Object Oriented Concepts with Python, and Core Java.
- Knowledge of developing web applications and RESTful web services and APIs using Python Flask, and Django.
- Good experience working with various Python IDEs such as Visual Studio Code, Jupyter Notebook, and PyCharm.
- Proficient in software development in Python libraries using libraries- NumPy, Pandas, Web2py, and CherryPy.
- Expert-level skills in HTML, CSS, and JavaScript including familiarity with common libraries like jQuery, Foundation, and Bootstrap.
- Well-Versed in working with AWS Services: Amazon S3, Amazon EC2, and CloudWatch, Cloud Formation, Lambda, CloudWatch.
- Proficiency in NoSQL technologies like MongoDB, and relational databases like SQLite, and MySQL databases.
- Working experience in Version control systems like Git.

SKILLS

Methodology:	SDLC, Agile, Waterfall
Languages:	Python, Java, C++, TypeScript, MySQL, NoSQL
Frameworks:	Django, Flask
IDEs:	Visual Studio Code, Jupyter Notebook, PyCharm
Package & Tools:	NumPy, Pandas, Web2py, CherryPy, JUNIT, Jest, unittest, pytest
Web Technologies:	HTML, CSS, JavaScript, Bootstrap, jQuery, Ajax, JSON, XML
AWS Services:	EC2, S3, CloudWatch, Cloud Formation, Lambda, CloudWatch
Databases:	SQL Server, MySQL, SQLite, MongoDB
Version Control Tools:	Git, GitHub
Operating Systems:	Windows, Linux, Mac

EXPERIENCE

Amazon (AWS), VA | Oct 2022 – Feb 2023
Software Development Engineer

- Developed and presented a dashboard using AWS CDK to keep track of tests runtime, resulting in a 100% improvement in team productivity.
- Investigated 5+ production issues which resulted in solving critical problems of the product.
- Integrated service changes into a large existing codebase, examining existing software packages to understand structure.
- Worked on a team of 10 software engineers submitting code reviews, Unit tests, participating in team meetings, and ensuring software met the standards for quality and reliability set forth by AWS org.

Oval SoftTech, India | May 2018 - July 2020
Jr. Software Developer

- Worked in various Software Development Methodologies like Waterfall.
- Developed Python applications to allow Web-based systems to interact with the Python-based production system.
- Implemented Core Java Design Patterns for caching, performance improvement, and memory utilization.
- Designed and developed web applications using Flask web framework for Python models or scripts.
- Developed web-based application using Django framework with Python concepts.
- Worked with various Python IDE like PyCharm and Visual Studio Code.
- Worked on several standard Python packages like NumPy, Pandas, Web2py, CherryPy, etc.
- Designed and styled UI screens using HTML, JavaScript, and CSS.
- Prepared mock data in several formats on flat files, assembly resources, images, JSON, and web services.
- Used integration of AJAX capabilities into enterprise application development.
- Developed AWS Cloud Formation template for application provisioning on AWS.
- Performed operations like Data reconciliation, validation, and error handling after Extracting data into SQL Server.

EDUCATION

Master of Computer Science | University of Maryland, Baltimore County, MD
Bachelor of Computer Science | Savitribai Phule Pune University, Maharashtra, India
