PROFESSIONAL SUMMARY

Oracle-certified Full Stack Java Developer with 4+ years of experience building scalable web applications and microservices. Skilled in Java, Spring Boot, Hibernate, REST APIs, and front-end technologies (Thymeleaf, HTML, CSS, JavaScript). And I am currently expanding my skill set by learning Python, Large Language Models (LLMs), and Neural Networks to stay aligned with emerging technologies. Adept at working in Agile teams, delivering high-quality, secure, and efficient solutions that streamline business processes. Currently seeking opportunities to contribute technical expertise and problem-solving skills to innovative projects. Highly motivated to contribute to remote-first teams, with proven ability to collaborate effectively across distributed teams using Agile tools and communication platforms.

CORE SKILLS

- **Languages:** Java, SQL, JavaScript, HTML, CSS
- **Frameworks:** Spring Boot, Spring MVC, Spring Core, Spring Security, JPA, JSP, Thymeleaf
- **Web Services:** REST, SOAP, JSON, XML
- **Databases:** Oracle, DB2, MySQL, PL/SQL
- **CI/CD & Tools:** Git, Jenkins, Maven, Gradle, WebSphere, Tomcat
- **ORM packages:** Hibernate, JPA, MyBatis, JDBC
- **IDEs:** IntelliJ, Eclipse, RAD
- **Other:** JMS like IBM messaging queues, IBM Infosphere MDM, Agile (Scrum/TDD), Unix, WebSphere Application Server(WAS)
- **Currently Learning:** Python, Large Language Models (LLMs), Neural Networks

PROFESSIONAL EXPERIENCE

Software Developer Consultant | CVS Health (via SSTech LLC) | Nov 2021 - Nov 2023

- Built and deployed scalable web services and microservices using Java/J2EE, Spring Boot, and WebSphere Application Server, improving performance and response times.
- Delivered enhancements for Enterprise Patient HUB, supporting patient identity management across pharmacy networks.
- Designed and developed a team web application (Spring Boot + Thymeleaf) to improve backend API accessibility and productivity.
- Maintained data quality in IBM MDM with custom APIs for searching, cleaning, updates, and DB2 queries.
- Integrated backend systems with IBM JMS Queues, boosting reliability and asynchronous communication.
- Worked with automated CI/CD pipelines with Jenkins and Git, reducing release cycle errors.
- Collaborated in Agile DevSecOps teams across distributed locations, contributing to sprint planning, code reviews, and proof-of-concept projects.
- Configured WAS console in local for efficient deployment and maintenance of enterprise applications.
- Handled business change requests, bug fixes, and code validations throughout release cycles.
- Analyzed logs and conducted technical research and evaluations to recommend suitable technologies
- Update design documents, managed code deployments to Test/QA environments, and collaborated with QA team for triage and testing support.
- Interaction with Unix servers through putty and WinSCP and database interactions through squirrel.

Independent Projects (2019 – 2021)

- **Makeup Artist Web App** – Appointment scheduling system with multilingual support (Java, Spring Boot, MySQL).
- **Library Web App** – Book search, issue/return functionality with MySQL backend and servlet-based UI.
- **Grocery List Web App** – CRUD-enabled web app for personalized list management (Spring MVC, JSP).

- Additional projects include **Snake & Ladder game**, **Movie Theater booking system**, and **Bank management app** – all available on GitHub.

EDUCATION

- **Master of Science in Computer Science Engineering** (2013 – 2015)
- **Bachelor of Engineering in Information Science** (2009 – 2013)

CERTIFICATIONS

- Oracle Certified Associate, Java SE 8 Programmer
