PROFESSIONAL EXPERIENCE

Strategy & Operations Analyst | MAGENTA MOBILITY

Mumbai | 11/2023 to 7/2024

Led 8-person team running "Duutie," a hiring platform for long-haul drivers at a logistics start-up in India. Oversaw strategic planning and scheduling of 75 drivers across assignments for 5 corporate clients.

- **Defined and led go-to-market strategy for a 2W EV last-mile delivery service that generated INR 2.5M in revenue** within 30 days of launch; cultivated partnerships and led market analysis to successfully deploy 25K vehicles.
- Enabled further growth by preparing forecasts to **secure INR 50M in debt financing from Morgan Stanley**.
- **Analyzed large data sets covering six months of transactional data and created a KPI dashboard** to track driver performance, streamline vendor management, and inform decision-making, lifting efficiency 20%.

Project Management Analyst | JP MORGAN CHASE

Mumbai 1/2023 to 6/2023

Led 6 team members in technical implementations, projects, and process improvements in the risk management department.

- **Planned and executed the adoption of an Action Tracker for risk mitigation and workflow management**, optimizing project tracking while elevating operational efficiency 18% for Data Center Governance and Management (DCGM).
- **Lowered DCGM processing time 25%** by implementing automation and data visualization tools.
- Standardized processes and lifted efficiency for the Projects team by **developing 10 new cross-functional workflows**.

Risk Advisory Junior Analyst | DELOITTE TOUCHE TOHMATSU INDIA, LLP

Mumbai | 1/2022 to 6/2022

Gained Big 4 audit/consulting experience by providing analysis in the risk management function of Deloitte in Mumbai, India.

- **Led audit team in examining 10 controls and 7 applications across 3 detailed IT audits for a major telecom company**, ensuring compliance with 60+ regulatory standards. Identified 10+ security gaps and recommended corrective action.
- Provided strategic leadership in adopting risk assessment and control testing, lifting audit efficiency 30%.
- **Mitigated 12+ critical vulnerabilities in client security applications** by improving access controls, automating security, and adopting strong encryption standards to slash security incidents 40%.

Startup Founder | MAID EASY

Mumbai | 6/2017 to 12/2019

Founded a two-sided marketplace for domestic workers and homeowners, ensuring fair wages, and providing high-quality help.

- **Designed a hybrid SMS and app marketplace**, converting insights from 100 helper and homeowner interviews into dynamic-pricing and real-time chore matching algorithms that closed the supply-demand gap for domestic work.
- **Onboarded 200 households and trained 50 domestic helpers**, increasing employment rate by 30%, and boosting earnings potential by 40% and enhancing mutual trust through two-way ratings, and seamless payment.

PROJECT EXPERIENCE

Course Management System: Created a patented platform for faculty to offer online courses with secure access and highly interactive functionality. Increased course accessibility for more than 500 students and improved engagement 40%.

Plan Pal: Worked on the development of an AI-driven lesson planning tool, including documenting an iterative User Centered Design (UCD) process that reflected on LLM-assisted persona creation and rapid prototype iteration cycles.
