SUMMARY

Dedicated Software Engineer with 3+ years of demonstrated experience in delivering innovative software solutions. Extensive experience in full-stack development alongside expertise in enhancing UX interfaces and deployment automation and optimization. Eager to leverage modern technologies to contribute to projects that promote professional growth and operational efficiency.

SKILLS

Programming Skills	: Java, JavaScript, TypeScript, Python, Groovy, Bash
Web Development	: React, Node.js, Express.js, NestJS, Vue.js, Vite, Chakra UI, REST API, Tailwind CSS, Bootstrap, CSS, HTML5
Testing and Quality Assurance	: Jest, Cypress, Vitest
Tools and Technologies	: Jenkins, Docker, Terraform, AWS, Kubernetes, OKTA, OAuth, JWT, Prisma, Kafka, Postman, JIRA, Git, Confluence, VS, PyCharm
Cloud Services	: S3, RDS, EC2, ECS, ALB, NLB, ECR
Database Management	: MongoDB, PostgreSQL, MySQL
Operating System	: Linux, Windows

WORK EXPERIENCE

Software Engineer Intern, Experian, United States

Jun 2024 - Present

- **UI/Backend Development:** Unified MLOps - Ascend Ops application by generalizing UI and backend features into Artifactory-published packages, achieving 75% code reuse across global regions.
- **UI/UX Enhancement:** Collaborated with UX designers to enhance the Ascend Ops UI, updated wireframes into a user interface that achieved 75% improvement in user experience and engagement, applying Agile methodologies throughout the software development.
- **Data Analytics:** Enabled user engagement tracking, boosting data-driven decisions and behavior insights.
- **Deployment & Onboarding:** Onboarded and deployed Ascend Ops product onto Experian's Unified Platform, leveraging Kubernetes clusters for seamless integration and scalability across regions, including the UK, Brazil, and EMEA.
- **Security Integration:** Integrated Vault with Kubernetes to securely manage UI service access to sensitive information, ensuring compliance with security standards.

Software Engineer, Experian, Hyderabad, India

Aug 2021 - Aug 2023

- **Feature Development:** Developed 20+ client-focused features, enhancing user experience and functionality.
- **Frontend Optimization:** Migrated Grafana dashboards to a React and TypeScript-based interface, improving data visualization speed by 70% and simplifying usability.
- **Cloud Automation:** Automated UI deployments with AWS, Terraform, and Docker, reducing manual effort by 90%.
- **Code Quality:** Resolved 50+ Veracode-flagged security vulnerabilities and 80+ SonarQube-reported code quality issues.
- **Deployment Optimization:** Streamlined CI/CD pipelines with automated builds for seamless software releases.
- **Testing Frameworks:** Implemented Cypress for frontend and Jest for backend, achieving 92% code coverage.

Software Engineer Intern, Experian, Hyderabad, India

Oct 2020 - Jul 2021

- **Component Library:** Developed a React Component Library with 30+ components for seamless integration across multiple projects.
- **UX Enhancements:** Engineered a custom React table with advanced server-side rendering, pagination, and sorting, improving user experience by 80%.
- **Code Quality & Testing:** Implemented unit and integration tests using Jest and Cypress for the React components, increasing test coverage by 40% and ensuring high code quality and maintainability across projects.

PROJECTS

Nutritional Assessment Application

- Developed a deep learning model for food image recognition, identifying dish names, ingredients, and nutritional content.
- Implemented full-stack functionality using React for UI and Node.js for backend services.

Face Mask Detection Application

- Integrated a deep neural network model with a React app for real-time face mask detection, enhancing, work place safety.
- Enabled seamless frontend-backend communication for real-time data processing and visualization.

EDUCATION

University of North Texas, Denton, United States - Master of Science, Computer Science

Aug 2023 - May 2025

Coursework: Advance Algorithms, Data Structures, Software Engineering, Fundamentals of Database systems.

JNTUH, Hyderabad, India - Bachelor of Technology, Computer Science and Engineering

Aug 2017 - Aug 2021

Coursework: Algorithms and Data Structures, Object Oriented Programming (JAVA), Operating Systems.
