SUMMARY

Versatile Business Analyst with strong experience supporting SAP (EWM/SD/MM) and Salesforce CRM platforms to improve operational efficiency and business performance. Skilled in business analysis, data analytics, master data oversight, CRM workflows, incident management, and Agile delivery. Hands-on exposure to healthcare payer operations, authorizations, claims, and compliance standards including HIPAA. Proven ability to support dashboards, reporting, testing cycles, release activities, and drive user adoption across enterprise systems. Adept at cross-functional collaboration, resolving system issues, ensuring data governance, and enhancing end-to-end business processes in both SaaS and cloud environments. Recognized for strong communication, problem-solving, and delivering high-quality support in fast-paced, regulated industries.

TECHNICAL SKILLS

Data Analysis:	Data Analysis, Reporting, Dashboards, Forecasting, Reconciliation, KPI Tracking, Trend Analysis, Visualization, ETL, Migration, CloverETL
Business Analysis:	Requirements Gathering, Process Mapping, Gap Analysis, Use Cases, Functional Specifications, Stakeholder Workshops, Solution Evaluation, Change Requests, User Stories
Healthcare:	Payer Processes, Provider Coordination, Authorizations, Claims Workflow, Regulatory Compliance, HIPAA, Healthcare Quality Support
IT Service:	Incident Support, SLA Monitoring, Audit Assistance, Access Control Checks, Knowledge Base Updates
SAP:	Order-to-Cash Concepts, Procurement Flows, Transaction Monitoring, ERP Enhancements, Master Data, Ticket Handling, System Testing, Cross-System Flow Awareness, SAP EWM, SAP MM, SAP S/4HANA, SAP BW/4HANA, SAP HANA, SAP Fiori/UI5, SAC, GRC
Salesforce:	Leads & Opportunities, Accounts & Contacts, CRM Workflows & Automation, Case Management, Data Quality, User Enablement, Dashboards & Reports
Project & Agile:	Scrum Ceremonies, Sprint Planning, Backlog Coordination, Risk Tracking, Release Support, Regression Testing, Test Scenarios
Governance:	API Familiarity, Data Standards, Governance Controls, Information Accuracy, Data Ownership Support
Tools:	JIRA, Confluence, ServiceNow, Visio, Lucidchart, Power BI, Excel (Advanced), SQL, Postman, Office 365, Git, GitHub
Cloud:	SaaS Applications, AWS, Azure, GCP, System Availability Monitoring
Certifications:	Certified Business Analysis, Project Management, Microsoft Azure AI

PROFESSIONAL EXPERIENCE

Humana	Dec 2024 – Present
Salesforce Business Analyst (Healthcare & SAP Project Manager)	
- Mentor cross-functional teams across Salesforce Sales & Service Cloud and SAP S/4HANA (SD/MM/EWM/BW/4HANA), driving end-to-end healthcare transformation initiatives across claims, provider coordination, and Order-to-Cash processes. - Lead advanced data analysis, KPI tracking, forecasting, and executive reporting using SQL, Power BI, SAC, and Advanced Excel, improving operational decision-making speed by 38%. - Govern Master Data Management (MDM), data quality validations, and HIPAA/SOX compliance controls, strengthening audit readiness and enterprise data integrity. - Translate payer workflows, authorizations, and claims lifecycle requirements into BRDs, FRDs, use cases, and user stories, reducing requirement gaps and rework by 24%. - Oversee API and CloverETL integrations across Salesforce, SAP, and cloud platforms (AWS/Azure), ensuring reliable cross-system data synchronization and reporting consistency. - Facilitate Agile ceremonies including sprint planning, backlog refinement, and release governance in JIRA and Confluence, increasing delivery velocity. - Strengthen CRM automation (Flows, validation rules, case routing) and SAP workflow enhancements, improving case resolution timelines by 29%. - Lead UAT strategy, regression testing, and defect triage while enhancing ServiceNow-based incident management and knowledge documentation to reduce recurring production issues. - Enforce access control governance using SAP GRC and Salesforce role hierarchies, aligning system security with enterprise compliance standards. - Support DevOps and cloud initiatives by aligning CI/CD releases, environment strategy, and system monitoring across Salesforce, SAP, AWS, and Azure to ensure stable and secure deployments.	
Sage Softech	Oct 2020 – Aug 2023
Agile Business Analyst	
- Owned end-to-end Salesforce CRM transformation initiatives, aligning Sales and Service Cloud capabilities with evolving business models and driving scalable digital process improvements. - Acted as Scrum Master for cross-functional teams, enforcing Agile governance, removing delivery impediments, and improving sprint throughput and team velocity by 30%. - Engineered CRM data architecture improvements through structured ETL migrations and schema optimization, significantly enhancing data consistency and reporting reliability. - Designed enterprise-grade reporting ecosystems leveraging SQL, Power BI, and Salesforce analytics to provide real-time revenue visibility and pipeline intelligence to leadership. - Established structured data governance frameworks including role hierarchy redesign, access audits, and compliance monitoring to strengthen system security and regulatory adherence. - Directed cloud integration initiatives across Salesforce, AWS, and Azure, improving API reliability and enabling seamless SaaS interoperability. - Led release management strategy including risk assessment, regression oversight, and deployment coordination, reducing production defects and stabilizing application performance. - Championed innovation initiatives by evaluating AI-driven automation use cases and process optimization opportunities to future-proof CRM capabilities.	

EDUCATION

Master of Science in Data Analytics

Clark University

Bachelor of Engineering in Computer Science & Engineering

Visvesvaraya Technological University
