PROFESSIONAL SUMMARY

Senior Data Analyst and Healthcare Data Integration Specialist with 10+ years of experience leading large-scale data migrations, ETL validation, and interoperability initiatives across enterprise healthcare and retail environments. Proven expertise in SQL-driven analytics, legacy-to-modern EHR reconciliation, HL7/CCD interface validation, and state reporting alignment. Experienced supporting multi-county healthcare system implementations and migrations across 25+ counties in the state of California. Skilled in leveraging generative AI tools to enhance business use case development, requirements engineering, and structured data validation workflows. Recognized for translating complex data systems into accurate, compliant, and business-ready solutions.

CORE COMPETENCIES

- SQL Development (SQL Server, Teradata, DB2, MySQL, SQLite)
 - Python (Pandas, Jupyter)
 - ETL / ELT Validation
 - Data Migration & Reconciliation
 - Healthcare Interoperability (HL7 ADT/ORM/ORU, CCD)
 - EHR Implementation Support
 - Data Quality & Integrity Auditing
 - Schema Mapping & Data Transformation
 - Azure DevOps (Epics, Features, Tasks)
 - Power BI (DAX, Data Modeling, Reporting)
 - Requirements Gathering & UAT
 - Data Warehousing & Enterprise Analytics
 - Generative AI for Business Analysis & Data Validation
-

TECHNICAL SKILLS

Languages & Querying: SQL, Python, XML, VBScript

Databases: SQL Server, Teradata, DB2, MySQL, SQLite

Analytics & BI Tools: Power BI, Excel (Advanced), MS Access

Healthcare Standards: HL7 (ADT, ORM, ORU), CCD

Platforms: Azure DevOps, Google Cloud Platform (GCP), Unix/Linux

Methodologies: Agile, SDLC, Lean Process Improvement

PROFESSIONAL EXPERIENCE

Streamline Healthcare Solutions (Remote) | Senior Data Integration Analyst | Oct 2022 – Nov 2025

- Served as Data Integration Analyst supporting CalMHSA statewide behavioral health EHR transformation impacting 25+ California counties.
- Led end-to-end ETL validation for legacy-to-SmartCare EHR migrations, reconciling source and target datasets using advanced SQL queries.
- Designed and executed migration validation scripts to ensure data accuracy, completeness, and regulatory compliance prior to go-live.
- Managed state reporting data alignment, coordinating nightly interface jobs to synchronize legacy systems with newly implemented EHR platforms.
- Validated HL7 (ADT/ORM/ORU) and CCD interface mappings to ensure accurate clinical, operational, and claims data exchange.
- Investigated and resolved cross-system data discrepancies impacting reporting and billing workflows.
- Tracked migration, interface, and reporting initiatives within Azure DevOps, managing Epics, Features, and Tasks across concurrent implementations.
- Applied generative AI to draft and refine business use cases, technical requirements, and SQL-based validation test scenarios, enhancing documentation quality and improving cross-team alignment during EHR migrations.

Clinical Business Analyst | Dec 2021 – Oct 2022

- Gathered and documented functional and technical requirements for EHR system implementations.
 - Conducted workflow analysis and data mapping sessions with clinical and operational stakeholders.
 - Used SQL to validate integration data and troubleshoot HL7/CCD message discrepancies.
 - Supported UAT cycles and ensured alignment between business requirements and technical deliverables.
-

Syntel Inc (Contracted to Home Depot) – Atlanta, GA | Lead QA Analyst | Jun 2012 – Feb 2017

- Led SQL-based ETL validation and data warehouse testing within Teradata and Hadoop environments.
- Developed complex validation queries to reconcile source system data with enterprise data warehouse outputs.
- Identified and resolved data quality defects impacting supply chain and inventory analytics reporting.
- Coordinated onshore and offshore QA teams to ensure delivery of high-volume enterprise data initiatives.
- Supported performance testing and regression testing across large-scale reporting systems.

Emory Healthcare – Atlanta, GA | Lead Clinician / Data Lead | Apr 2017 – Feb 2021

- Automated KPI tracking using advanced Excel and Access reporting solutions for leadership dashboards.
- Analyzed admissions and census data to support operational decision-making.
- Applied Lean methodologies to improve clinical workflows and data collection accuracy.

Riverwoods Behavioral Healthcare – Riverdale, GA | Director of Admissions (Mobile) | Feb 2021 – Jun 2021

- Built Excel-based analytics reports to monitor admission trends and performance metrics.
- Led a mobile assessment team of 60 staff members, implementing digital tools to improve throughput and response time.

ADDITIONAL EXPERIENCE

QA and Data Validation roles at Humana Inc., TSYS Acquiring Solutions, and Lumension Security, focusing on SQL testing, ETL validation, and data integrity assurance.

EDUCATION

- **B.S., Mathematics (Applied Biology)** – University of California, Los Angeles (UCLA)

- **M.A., Professional Counseling** – Argosy University
-

CERTIFICATIONS

- Professional Certificate: Data Analysis & Visualization with Power BI | IBM / Coursera (2026)
- Professional Certificate: Python for Data Science, AI & Development | IBM / Coursera (2026)
- Professional Certificate: Databases & SQL for Data Science | IBM / Coursera (2025)
