PROFESSIONAL SUMMARY

MS in Information Technology & Management graduate with hands-on experience across academic and professional data analytics projects. Strong proficiency in SQL (BigQuery), Python (Pandas, NumPy), Google Analytics, and Tableau, with a proven track record of reducing reporting turnaround time by 20% and modeling a \$75K+ revenue uplift through conversion and funnel analysis. Experienced in translating complex data into actionable business insights.

PROFESSIONAL EXPERIENCE

DesTan LLC | Dallas, TX

Sep 2025 – Present

Jr. Data Analyst

Delivered weekly and ad-hoc reporting for operations teams, contributing to reports used by 3–5 stakeholders.

- Developed SQL queries to extract and summarize datasets from BigQuery, reducing reporting turnaround time by 20% for 3–5 key stakeholders.
- Built and maintained 4+ Tableau / Power BI dashboards to provide ongoing visibility into KPIs and operational performance metrics.
- Standardized report structures and documentation, improving consistency across recurring reports and reducing manual preparation effort by 15–20%.
- Executed exploratory data analysis (EDA) to identify trends and anomalies, supporting strategic team reviews and data-driven discussions.
- Partnered with stakeholders to clarify reporting requirements and ensure dashboards aligned with business priorities.

LOGICGO INFOTECH | Surat, India

Mar 2023 – Jun 2023

Data Analyst Intern

Executed weekly and monthly analysis and reporting using SQL and Excel to support business and marketing teams.

- Created 2–4 visualizations per week to highlight key trends, performance metrics, and engagement indicators.
- Supported regular reporting cycles, helping ensure on-time delivery of analytical outputs.
- Collaborated with a cross-functional team of 4–6 members to understand reporting requirements and analytical needs.
- Helped improve reporting efficiency by ~15% by reducing repetitive manual steps through better data organization and templates.
- Collaborated with marketing and development teams to optimize user experience and campaign targeting, increasing engagement by 30%.

PROJECT EXPERIENCE

Marketing Web Analytics Project - Apple Inc (Graduate Project, UTD)

- Modeled a \$75K+ net revenue uplift by performing a conversion waterfall analysis, attributing revenue changes to traffic volume, conversion rate, and average order value.
- Diagnosed a critical UX bottleneck where mobile bounce rates increased from 7% to 54% YoY, driving recommendations for mobile optimization.
- Quantified multi-channel performance using Google Analytics, identifying Paid Search as the highest conversion driver (~14%) and Organic Video as the top engagement channel (~100%).
- Utilized Python (Pandas, NumPy) to clean, segment, and analyze web traffic data across regions and device types.
- Synthesized findings into executive-style insights connecting user behavior patterns to revenue impact.

Data Visualization & Commercial Graph Analysis (Graduate Project, UTD)

- Architected 5+ graph-based visualizations to map complex business ecosystems and interaction networks.
- Applied visualization best practices to translate technical insights for non-technical stakeholders across healthcare, transportation, and cybersecurity use cases.
- Evaluated network structures to demonstrate how visualization supports operational and strategic decision-making.
- Collaborated in a 4-member team to deliver a comprehensive research analysis and formal presentation.
- Emphasized clarity, hierarchy, and visual storytelling to reduce cognitive load for decision-makers.

TECHNICAL SKILLS

Data Analysis & Programming: SQL (subqueries – BigQuery, PostgreSQL), Python (Pandas, NumPy, Matplotlib), Exploratory Data Analysis (EDA), Data Cleaning & Preparation

Analytics & Visualization: Google Analytics (GA4), Tableau, Power BI (basic), Dashboard Design, Data Storytelling

Reporting & Productivity Tools: Microsoft Excel (Pivot Tables/VLOOKUP), PowerPoint, Documentation & Reporting

Soft Skills: Analytical Thinking, Problem Solving, Communication, Attention to Detail, Collaboration, Time Management

Other Tools: Google BigQuery, Git/GitHub, Data Validation

EDUCATION

Master of Science, Information Technology and Management | The University of Texas at Dallas, Texas | GPA: 3.83

Dec 2025

Bachelor of Engineering, Computer Engineering | Gujarat Technological University, India | GPA: 3.78

May 2023
