SUMMARY

Analytical professional with **5+ years of experience** in **data analysis, financial and operational reporting, trend and variance analysis, and stakeholder support** across healthcare and enterprise environments. Proven ability to analyze complex datasets, identify discrepancies and unusual activity, prepare recurring and ad-hoc reports, and support governance, compliance, and audit-related activities. Strong proficiency in **Excel, PowerPoint, and SQL**, with the ability to work independently, exercise judgment, and manage competing priorities under deadlines.

CORE SKILLS

Financial / Budget-Related Analysis

- Trend and Variance Analysis
- Cost & Resource Analysis (Support Level)
- Performance & Statistical Reporting
- Budget / Expenditure Monitoring (Analytical Support)

Data & Reporting Tools

- Excel (Pivot Tables, Formulas, Reconciliation, Reporting)
- PowerPoint (Management & Governance Reporting)
- SQL (Data Validation, Analysis)
- Google Sheets
- SAP SD

Governance & Stakeholder Support

- Data Accuracy & Quality Review
- Compliance & Audit Support
- Cross-Functional Collaboration
- Documentation & Process Improvement

PROFESSIONAL EXPERIENCE

Risk Analyst / Data Analyst, Northwell Health (Remote) — Feb 2025 – Sep 2025

- Analyzed operational, workforce, and training-related datasets to support planning, compliance, and resource-related decision-making.
- Reviewed **trends and variances** across recurring reports to identify discrepancies, unusual activity, and data integrity issues.
- Prepared recurring and ad-hoc **Excel-based reports** summarizing utilization, compliance status, and projected trends for stakeholders.
- Supported program staff by interpreting data, clarifying reporting requirements, and responding to budget- and performance-related inquiries.
- Ensured alignment between authorized roles, training assignments, and active workforce data, supporting effective resource management.
- Investigated data inconsistencies and collaborated with engineering and operations teams to resolve issues efficiently.

- Supported governance and audit-readiness efforts by validating datasets, documenting findings, and assisting with issue remediation.

Business Analyst / QA Analyst, Accenture – Mountain View, CA
Feb 2022 – Apr 2023

- Analyzed operational and performance data to identify **trends, variances, risks, and inefficiencies** across high-volume workflows.
- Conducted variance and exception analysis to confirm data accuracy and support governance and compliance reporting.
- Prepared **Excel and PowerPoint reports** summarizing findings, impacts, and recommendations for leadership review.
- Supported audit and review activities by providing accurate data, reconciliations, and written explanations.
- Improved process efficiency by **approximately 30%** through data analysis and cross-functional coordination.
- Served as a liaison between business, operations, and technical teams to resolve data and reporting issues.

Analyst (Business Analyst / ASE), Capgemini – Hyderabad, India
Sept 2020 – Apr 2021

- Performed data analysis and reporting to support system validation and operational decision-making.
- Assisted with reconciliation of results, investigation of discrepancies, and documentation of findings.
- Conducted User Acceptance Testing (UAT) and prepared reports supporting audit readiness and compliance.

Business Analyst, Accenture – Hyderabad, India
May 2018 – Jan 2020

- Performed analytical reviews of operational and compliance-driven data, achieving **98% accuracy**.
- Developed dashboards and summary reports to analyze trends and support management decision-making.
- Documented SOPs, internal controls, and process improvements to support governance and risk reduction.
- Supported stakeholders by interpreting data, explaining trends, and responding to reporting inquiries.

EDUCATION

Bachelor of Technology (B.Tech), Jawaharlal Nehru Technological University, Hyderabad, India
