Objective

Software Engineer with expertise in .Net, C#, JavaScript, SQL/NoSQL, Python, Java, VB, HTML, CSS, React, Angular, Node, and Express. AWS Certified Cloud Practitioner and Sun Certified Programmer in Java. Skilled in developing web applications, with a strong focus on client engagement, project analysis, implementation, and deployment.

Experience

INDEPENDENT LEARNER & DEVELOPER — SEP 2023–Present

- Completed coursework in AI, cloud computing, and modern web development.
- Designed and developed a quiz application using Gemini API, with dynamic question generation, scoring, and personalized feedback.
- Built projects leveraging Google Firebase/Firestore for real-time storage and Google OAuth 2.0 for authentication.
- Utilized AI-assisted tools (GitHub Copilot, Cursor AI) to streamline development and improve code quality.
- Strengthened expertise in React, Node.js, and database management, applying WCAG accessibility and scalability best practices.

SOFTWARE DEVELOPER, FIRSTSOURCE SOLUTIONS — APR 2022- SEP 2023

- Developed, tested, and deployed various projects using UiPath Studio, .Net framework, C#, JavaScript, Python, SQL, WebAPI, SharePoint, and PowerApps.
- Collaborated with clients to analyze project requirements, oversee implementation, qualification, deployment to production, and provided continued support.
- Engaged with remote team members, conducted training sessions for operations team on tools and systems.

OPENSOURCE CONTRIBUTOR — OCT 2019- MAR 2022

Contributed to several open-source projects including OpenLearning Exchange, FreeCodeCamp, Oppia, and TeamMates.

- Collaborated on the design and development of various applications utilizing Angular, React, HTML, CSS, .NET, Python, Node.js, MongoDB, MySQL, MS SQL Server
- Addressed assigned issues by submitting pull requests, reviewing changes, testing applications, and reporting defects.

Skills

Languages: JavaScript, C#, Java, Python, VB, HTML, CSS, SQL

Frameworks/Technologies: UiPath, .Net, React, Angular, Bootstrap, Node, Express

Version Control: Git/GitHub

Education

Master of Computer Applications, Calicut University

Bachelor of Physics, Calicut University
