Relevant Skills: SQL | Python | Data Analytics | Data Visualisation | Database Management | Machine Learning

EDUCATION

Santa Clara University, Leavey School of Business
Masters of Science in Information Systems GPA: 3.6

Santa Clara, California
Jun 2025

Data Analytics (Python) | Database Management | System Analysis and Design | Big Data Modelling

Savitribai Phule Pune University

Bachelor of Engineering in Computer Engineering GPA: 3.77
Honors in Data Science

Pune, India
Jun 2023

Savitribai Phule Pune University

Diploma of Financial Technologies GPA: 3.68

Pune, India
Aug 2022

TECHNICAL SKILLS

Programming Languages:

MySQL, PostgreSQL, Python, R, Spark, Pyspark, Kafka, HTML, CSS, NoSQL

Tools and libraries:

NumPy, Pandas, Seaborn, Scikit-learn, TensorFlow, PyTorch, Microsoft Office (365), Google Analytics, Tableau, Power BI, JIRA, Salesforce CRM, ServiceNow, Looker

Non-technical skills:

Data Analytics, A/B Testing, Business Insights, Machine Learning, Agile/SCRUM, Stakeholder Engagement, Database Management, Data Visualisation, Stakeholder Engagement

Certification:

Tableau Business Intelligence Analyst Specialization, Databases and SQL for Data Science with Python (IBM), Advanced Google Analytics

EXPERIENCE

ML Research Assistant | Santa Clara University

Apr 2025-Present | California

- Built scalable data pipelines to process and clean data on grants related to semiconductors and clean energy under the CHIPS and Science Act.
- Conducting research under faculty supervision on foundational machine learning models leveraging Python, LLMs, web scraping, and public records to compile a structured dataset across federal and local grant initiatives.

Business Analyst Intern | Bizinc

Jul 2024-Sep 2024 | Georgia

- Designed data pipelines to extract, transform, and visualise platform usage patterns from the Booksy website, to optimise target audience engagement for beauty professionals in the Atlanta region.
- Enhanced brand reach by 17% through the strategic redesign of the business portal, driving increased user engagement.
- Elevated CTR by 25% and impressions by 35% through the launch of new features for the business portal, significantly enhancing engagement and visibility across social media platforms.

Business Analytics Intern (Practicum project) | Box, Inc.

Jan 2024-May 2024 | California

- Collaborated with data science teams to build and iterate on BigQuery-powered dashboards using SQL and Tableau, enabling real-time visibility into performance metrics.
- Utilised *Llama 3 model* with prompt engineering framework to analyse customer acquisition channels leading to a 15% increase in conversion rates.
- Presented analytical findings and proposed strategic recommendations to marketing and sales teams via reports and live presentations.

Software Developer | Commous, Inc.

Jul 2021-Dec 2021 | India

- Maintained MySQL and PostgreSQL databases, ensuring high availability and performance tuning. increasing user acquisition by 13% YoY.
- Managed and analysed large-scale datasets on cloud infrastructure, improving data processing and retrieval performance for *SaaS products*.
- Developed *SQL-based data models* to analyse user interactions and enhance retention strategies.

ACADEMIC PROJECTS

SFO Airport Survey

- Developed an interactive Tableau dashboard for executives to visualise passenger satisfaction and operational bottlenecks, enabling data-driven decisions.
- Optimised data processing workflows using SQL and Python, ensuring efficient data cleansing, transformation, and visualisation.
- Identified security bottlenecks, facility usage trends, and passenger satisfaction drivers, enabling airport management to enhance operational efficiency.

Google Business Optimisation

- Evaluated Google's business challenges such as increasing competition, declining YouTube ad revenue, and underperforming search results, and performed a gap analysis to pinpoint operational inefficiencies and uncover growth opportunities.
- Proposed strategic solutions to boost YouTube ad revenue and enhance search capabilities, developing a timeline with actionable milestones for solution implementation and driving stakeholder alignment.

JobGenie Recommender System

- Developed a web scraper for LinkedIn job listings, utilising TF-IDF and ranking algorithms to identify and recommend the most relevant job opportunities based on candidate profiles with a job relevance score of 75%.
- Implemented an AI-powered keyword optimisation feature, analysing job descriptions to suggest the best resume enhancements.
- Utilised Jira for sprint planning, progress tracking, and milestone reporting to ensure timely delivery of analytics projects.

LEADERSHIP SKILLS

Interests: Indian Classical dancer with "*Visharad Poorna*" (Bachelor of Performing Arts)

Leadership Experience: Team lead and Production Manager for *Padma Art Circle* (theatre group specialising dramas, ad films, short films).

- Orchestrated and directed teams of 20 and 37 individuals for distinct inter-collegiate events.
- Dedicated member of SCU Product and AI Club, participating and contributing to product development challenges.
