

SHIVANI UPPALA

Business Analyst

Location: USA | Email: Shivaniuppala034@gmail.com | Phone: (475) 287-3249 | [LinkedIn](#)

SUMMARY

- Business Analyst with 3+ years of experience in business process improvement, data analysis, and enterprise technology solutions.
- Proficient in requirement gathering, BRD, FRD, workflow design (BPMN), and impact analysis to drive efficiency.
- Skilled in data analysis & visualization using Power BI, Tableau, SQL (PostgreSQL, MySQL, SQL Server), Python and R.
- Expertise in cloud-based analytics solutions with AWS (Redshift, S3, Glue), Azure and Google Cloud (BigQuery) for process automation.
- Strong understanding of Agile (Scrum, Kanban), stakeholder management, risk management, and SDLC methodologies.
- Hands-on experience with enterprise tools like SAP, Microsoft Dynamics 365, Salesforce CRM, Jira, and Confluence.
- Led Lean Six Sigma (DMAIC) and Kaizen initiatives to enhance business operations and eliminate inefficiencies.
- Adept at compliance management (HIPAA, SOX, AML) and implementing AI-driven analytics for predictive insights.
- Strong communicator with expertise in negotiation, stakeholder collaboration, and presentation skills.
- Passionate about leveraging business intelligence, process reengineering, and AI-driven solutions to drive innovation.

SKILLS

- **Business Analysis & Documentation:** Requirement Gathering, BRD, FRD, Use Case Development, Process Modelling (BPMN), Workflow Design, User Stories, Gap Analysis, Impact Analysis, Business Case Development
- **Data Analysis & Visualization:** Power BI, Tableau, Looker, Advanced Excel (Pivot Tables, VLOOKUP, XLOOKUP, Power Query), SQL (MySQL, SQL Server, PostgreSQL), Python (Pandas, NumPy), R
- **Enterprise Tools:** Jira, Confluence, SAP (Materials Management, FICO), Microsoft Dynamics 365, Salesforce CRM
- **Project Management & Methodologies:** Agile (Scrum, Kanban), Waterfall, SDLC, Stakeholder Management, Change Management, Risk Management
- **Business Process Improvement:** Root Cause Analysis (RCA), Lean Six Sigma, DMAIC, Process Reengineering, Continuous Improvement (Kaizen)
- **Soft Skills:** Critical Thinking, Problem-Solving, Communication, Negotiation, Stakeholder Collaboration, Time Management, Presentation Skills
- **Cloud & Integration Tools:** AWS (S3, Redshift, Glue), Google Cloud (BigQuery), Azure (Synapse, Data Factory), Informatica, Snowflake
- **Data Analysis Techniques:** Data Cleansing, Data Wrangling, Statistical Analysis, Time Series Analysis, A/B Testing
- **Healthcare & Compliance Knowledge (if applicable):** HIPAA, EMR, EHR, ICD-10, SOX, AML
- **Version Control & Collaboration:** Git, GitHub, Trello, Microsoft Teams, Slack
- **Other Tools:** Microsoft Visio, Lucidchart, ChatGPT

WORK EXPERIENCE

Honeywell

Nov 2024 – Present

Business Analyst

- Orchestrated the development of workflow designs and use cases, enabling AI-driven analytics to enhance manufacturing efficiency.
- Evaluated the impact of sustainable material adoption through impact analysis, ensuring compliance with SOX & AML regulations.
- Engineered real-time data visualization in Looker and SQL (PostgreSQL) to track energy consumption, waste reduction, and cost savings.
- Deployed cloud-based analytics solutions using Azure Synapse, Snowflake, and AWS Glue, facilitating seamless process automation.
- Championed a continuous improvement (Kaizen) initiative, leading to a 15% reduction in operational waste through AI-powered predictive maintenance.

Business Analyst

- Collaborated with stakeholders to define key logistics metrics and translated them into structured user stories for dashboard development.
- Created BPMN process models to visualize shipment tracking workflows, identifying inefficiencies and proposing process enhancements.
- Designed interactive dashboards in Power BI & Tableau, enabling leadership to monitor real-time shipment status, delays, and performance trends.
- Conducted impact analysis to measure the effectiveness of data-driven decisions, improving fleet utilization and operational efficiency.
- Developed and optimized complex SQL queries in PostgreSQL to extract, cleanse, and analyze shipment and delivery data for enhanced reporting.
- Integrated cloud-based data solutions using AWS Redshift & Google BigQuery, enabling seamless data storage and high-speed analytics processing.
- Facilitated Agile ceremonies, including daily stand-ups and sprint planning, while leveraging Salesforce CRM, Jira, and Confluence for efficient project management.
- Implemented Lean Six Sigma (DMAIC) methodologies to identify and eliminate bottlenecks in logistics operations, reducing turnaround times.
- Spearheaded continuous improvement (Kaizen) initiatives, leading to a 20% reduction in shipment delays through enhanced real-time tracking and forecasting.

TatvaSoft**Mar 2020 – Dec 2020****Business Analyst**

- Gathered and documented detailed business requirements (BRD & FRD), ensuring alignment with stakeholder expectations for an efficient loan processing workflow.
- Designed BPMN process models and developed comprehensive use cases to optimize the end-to-end loan application, approval, and disbursement processes.
- Conducted an in-depth gap analysis to identify inefficiencies in the legacy loan management system, leading to the implementation of key process enhancements.
- Developed SQL-based reports in MySQL & SQL Server, enabling real-time tracking of loan performance, risk assessment, and financial forecasting.
- Collaborated closely with stakeholders to integrate the loan processing system with Microsoft Dynamics 365 & SAP, ensuring seamless financial module connectivity.
- Led a root cause analysis (RCA) initiative to identify processing errors, implementing corrective measures that improved loan approval turnaround time by 30%.

PROJECTS**AI-Driven Customer Sentiment Analysis**

- Implemented Natural Language Processing (NLP) techniques using Python and AWS Comprehend to analyse customer feedback and detect sentiment trends.
- Developed interactive Power BI dashboards that provided real-time insights into customer satisfaction.

Fraud Detection in Financial Transactions

- Implemented anomaly detection algorithms in Python (Scikit-learn) to identify fraudulent transactions in real-time.
- Integrated fraud alerts into Salesforce CRM and Microsoft Power Automate to enhance security monitoring.

EDUCATION**Master of Business Administration**

New York Institute of Technology – Old Westbury Campus, NY | 2023 - 2025

Bachelor in Mechanical Engineering

Vardhaman College of Engineering – Shamshabad Rd, Kacharam, India | 2018 – 2022
