

Sreenu Gundeboyana

Business Analyst – Healthcare

Madison, USA • +1 (608) 509-4471 • [gundeboyanasreenu96@gmail.com](mailto:gundeboyanasreenu96@gmail.com) • [LinkedIn](#)

<https://www.linkedin.com/in/sreenu-gundeboyana-66a709345/>

SUMMARY

- Detail-oriented and strategic **Healthcare Business Analyst with 4+ years** of experience in corporate wellness, digital health, commercial insurance, and patient monitoring programs, ensuring compliance with **HIPAA, HITECH, and CMS** regulations.
- Skilled in requirement gathering, **BRD/FRD documentation, user stories, and acceptance criteria**, translating complex business needs into actionable deliverables for EHR/EMR and payer/provider systems.
- Adept at workflow analysis, **business process re-engineering**, and SOP development, optimizing insurance enrollment, symptom management, chronic condition monitoring, and telemedicine initiatives.
- Strong experience in **UAT planning**, test case creation, defect tracking, and HL7/FHIR interface validation, ensuring seamless integration across wellness apps, telemedicine platforms, and digital health systems.
- Proficient in data migration, SQL-based validation, claims data analysis, KPI reporting, and dashboard creation to enhance operational efficiency and patient adherence metrics.
- Skilled in **Snowflake, Google Cloud, Data Lake environments, Alteryx, Business Objects, and Python basics** for data analysis.
- Collaborated with cross-functional teams including Product Owners, HR, clinicians, IT, QA, and compliance, ensuring **Agile/Scrum delivery** of employer-sponsored coverage, wellness programs, and cancer care projects.
- Experienced in phygital healthcare platform configuration, **patient engagement tools, and analytics dashboards, improving adoption, monitoring outcomes, and driving operational improvements.**
- Partnered in stakeholder management, backlog refinement, PI Planning, and agile coordination, successfully delivering multiple healthcare transformation initiatives on time and within scope.

| <ul style="list-style-type: none"><li>• Engaged with stakeholders to map <b>commercial insurance and employer-sponsored coverage workflows</b>, identifying gaps while ensuring <b>HIPAA, HITECH, and CMS compliance</b>.</li><li>• Collaborated with Product Owners and IT teams via <b>Confluence, MS Teams, and Rally</b> to refine backlog and prioritize features for <b>symptom management and remote patient monitoring initiatives</b>.</li><li>• Participated in <b>PI Planning and sprint sessions under SAFe</b>, aligning IT deliverables with business priorities for insurance enrollment and cancer care programs.</li></ul> |                    |

- Gathered and documented **BRDs and FRDs** in **Epic and Cerner**, translating business requirements into actionable specifications for claims processing and wellness program management.
- Authored **user stories and acceptance criteria** in **JIRA**, and developed **UML diagrams** in **MS Visio**, supporting Agile/Scrum delivery for patient monitoring dashboards and portal enhancements.
- Designed workflow diagrams and wireframes in **Lucidchart, Draw.io**, and **Balsamiq**, improving member engagement tools and analytics interfaces.
- Performed **SQL** and **Snowflake**-based data validation and reporting, including ETL testing across Data Lake pipelines, ETL testing and reporting, ensuring accuracy of ICD-10/CPT coding and enrollment metrics.
- Built dashboards in **Power BI and Business Objects** to track KPIs for benefit utilization, health program participation, and patient adherence, enhancing operational insights.
- Facilitated cross-functional collaboration through **SharePoint and ServiceNow**, streamlining communication, documentation, and change management across teams.
- Supported **UAT, regression testing, and defect tracking** in **HP ALM**, ensuring quality releases for **insurance systems and patient monitoring applications**.
- Conducted **HL7 and FHIR interface analysis** to enable secure, real-time data exchange between **EMR/EHR systems, payer platforms, and wellness solutions**.
- Implemented **workflow re-engineering initiatives** for **enrollment processes, chronic condition management, and cancer care services**, reducing operational delays and improving outcomes.

**Environments/Tools:** Epic, Cerner, Allscripts, JIRA, Rally, Confluence, MS Teams, MS Visio, Lucidchart, Draw.io, Balsamiq, Power BI, Tableau, QlikView, SQL, HP ALM, Smartsheet, SharePoint, ServiceNow, HL7, FHIR, CCD, X12, Mirth Connect, Agile/Scrum, SAFe

## **HCL Healthcare – India**

**Jul 2020 – Jul 2023**

*Business Analyst*

- Captured business and clinical requirements for corporate wellness, lifestyle management, chronic condition tracking, and health risk assessments, ensuring regulatory compliance.
- Acted as liaison between HR teams, clinicians, product owners, and IT; documented workflows and tracked epics, user stories, and backlog items using **Azure DevOps and VersionOne** for wellness app and telemedicine platform initiatives.
- Conducted workflow analysis and **business process re-engineering** for **EHR/EMR platforms and payer/provider systems**, validating wellness, preventive care, and employee health data.
- Configured healthcare and digital wellness platforms for phygital delivery of preventive health checks, mental wellness sessions, telemedicine, and primary care workflows, creating SOP documentation in **Confluence and MS Project**.
- Supported **UAT** by preparing test cases, executing regression testing, validating **HL7/FHIR** message flows, and performing API checks in **Postman, SoapUI, and Swagger** for seamless integration across wellness, chronic care, and diagnostic modules.
- Oversaw data migration leveraging **Informatica, Talend, and Alteryx**, validating wellness and telemedicine services across Snowflake and Data Lake environments, integration, and validation for corporate wellness programs, health screenings, and telemedicine services, conducting audits and issue tracking in ServiceNow.
- Built healthcare analytics dashboards in **Tableau**, supplementing Advanced Excel models with **Alteryx automation and Python scripts** for data preprocessing and Advanced Excel (Pivot Tables, Power Query, VBA) to track employee engagement, utilization metrics, and preventive care adoption.
- Partnered with QA, compliance, and analytics teams to refine workflows, enhance onboarding, and improve platform adoption using Agile coordination and RPA exposure with UiPath for automation of repetitive processes.
- Collaborated with data engineering teams on cloud-based integration projects leveraging Azure Data Factory, AWS (S3, Redshift), Google Cloud (BigQuery), and Snowflake for healthcare data storage and reporting for healthcare data storage and reporting.

**Environments/Tools:** Epic, Cerner, Meditech, Allscripts, JIRA, Azure DevOps, VersionOne, Confluence, MS Visio, Lucidchart, Draw.io, MS Project, Power BI, Tableau, Advanced Excel (Power Query, VBA), SQL, ServiceNow, HP ALM, Postman, SoapUI, Swagger, Informatica, Talend, HL7, FHIR, NCPDP, SNOMED CT, Azure Data Factory, AWS (S3, Redshift), UiPath, Agile/Scrum, Waterfall

## **EDUCATION & CERTIFICATION**

**M.S in Information Technology Project Management** from St. Francis College

**Bachelor's** in Electronics and Communications Engineering from JNTUH College of Engineering in Hyderabad

### **Certifications:**

Certified Business Analysis Professional (CBAP®)

PMI Professional in Business Analysis (PMI-PBA®) – PMI
