SUMMARY

Full Stack Developer with 4+ years of experience designing and delivering scalable enterprise applications across **banking, finance, healthcare, retail, and cloud domains**. Proficient in **.NET Core, ASP.NET MVC, Spring Boot, React.js, Angular, Node.js**, and cloud platforms (**AWS, Azure, GCP**). Skilled in building **microservices, trading systems, risk analysis tools, wealth management dashboards, healthcare compliance workflows, and retail e-commerce platforms**. Expertise in **CI/CD automation (Jenkins, Docker, Kubernetes)**, **ETL optimization (Apache Spark, Airflow, AWS Glue)**, and **database performance tuning (PostgreSQL, MongoDB, SQL Server, DynamoDB)**. Adept at delivering **secure, high-performance applications** in Agile environments.

TECHNICAL SKILLS

Programming Languages: C#, JavaScript, TypeScript, Rust, Python, SQL, C/C++, Bash/Shell, Swift, Golang

Frameworks & Libraries: .NET Core, ASP.NET MVC, Spring Boot, Spring MVC, Hibernate, Entity Framework, React.js, AngularJS, Redux, Node.js, React Query, TailwindCSS, Material UI, Hadoop

Web Technologies: HTML5, CSS3, JavaScript, AJAX, jQuery, Bootstrap, Razor, REST APIs, SOAP, GraphQL

Cloud Platforms: AWS (EC2, S3, Lambda, RDS, Glue, EMR, Redshift, EKS, CloudWatch), Azure (Service Fabric, Data Factory, AKS, API Management, Functions), Google Cloud Platform (GCP)

Databases: SQL Server, PostgreSQL, MySQL, Oracle, MongoDB, DynamoDB, Cassandra

DevOps & Tools: Jenkins, Docker, Kubernetes, Git, GitHub, GitLab, TFS, Visual Studio, Postman, JIRA, SSRS

Testing & QA: Selenium, JUnit, NUnit, Postman

Methodologies: Agile (Scrum), SDLC, TDD, Waterfall

Operating Systems: Windows, Linux

Domain Expertise: Banking & Finance (Wealth Management, Trading Systems, Risk Analysis, Compliance), Healthcare (Claims, Compliance, Patient Records), Retail (E-Commerce, CRM, ERP)

PROFESSIONAL EXPERIENCE

JP Morgan Chase & Co. – Connecticut, USA

Full Stack Developer | Dec 2022 – Present

- Built enterprise **banking applications** using ASP.NET MVC, Razor, and React.js for **wealth management, trading dashboards, and client reporting systems**.
- Designed **risk analysis APIs** with Spring Boot & Kafka for real-time financial data, improving **latency for high-volume trading transactions**.
- Developed **responsive React.js UIs** with Material UI for **payment gateways, onboarding workflows, and trading views**, improving user satisfaction by 15%.
- Migrated financial data pipelines to **AWS Glue & RDS**, accelerating **compliance reporting ETL** by 50%.
- Optimized PostgreSQL/MongoDB schemas for **healthcare records and finance datasets**, reducing query times by 35%.
- Automated vendor data transfers with **Airflow & Spark**, cutting compliance processing by 30%.
- Deployed applications on **AWS EKS & EMR**, enabling **petabyte-scale analytics** for **retail transaction data**.
- Implemented CI/CD pipelines with **Jenkins, Docker, and Kubernetes**, reducing deployment errors by 40%.

Dell Technologies – Hyderabad, India

Full Stack Developer | Aug 2020 – Jul 2021

- Created **AngularJS & Razor UIs** for **retail CRM, healthcare dashboards, and financial reporting systems**.
- Built secure **authentication/authorization modules** (.NET Membership, OAuth) for **banking and healthcare portals**.
- Migrated workloads to **Azure Service Fabric & AKS**, improving uptime for **finance & healthcare claim systems**.
- Developed **Spring Boot microservices** for **stock trading applications**, integrating Spring Security for cross-service access.
- Enhanced data pipelines with **Python, DynamoDB, PostgreSQL, and AWS Lambda**, processing **healthcare claims and retail sales data** 40% faster.
- Automated CI/CD pipelines with Jenkins, Git, and **blue-green deployments**, ensuring zero-downtime releases.
- Improved **UI/UX for e-commerce platforms**, raising customer satisfaction by 20%.

Trigent Software – Bangalore, India

Software Developer Intern | Feb 2020 – Jul 2020

- Built HR and compliance systems with **ASP.NET Web Forms & WCF**, reducing onboarding time by 70%.
- Developed **SOAP & REST APIs** for **banking reconciliation workflows and healthcare claims exchange**.
- Refactored a legacy monolith into **microservices architecture**, improving scalability for **retail ERP & finance systems**.
- Built **interactive Angular dashboards** for **trading activity monitoring and healthcare compliance tracking**.
- Designed layered architecture with **Entity Framework**, improving database abstraction and scalability.

EDUCATION

Belhaven University – Jackson, MS, USA

Master of Science in Information Technology | Feb 2022 – Apr 2023

St. Francis College for Women – Hyderabad, India

Bachelor of Commerce (Computers) | Jun 2016 – Apr 2019
