

TANNU JAIN

Jersey City, NJ | (646)-820-6220 | jaintannu708@gmail.com

Professional Experience

Data-driven Analyst with 4+ years of experience in data analysis, business analysis, business intelligence, and process optimization. Skilled in SQL, Python, Tableau, Power BI, AWS, and ETL pipelines. Expertise in data mining, statistical modeling, and delivering actionable business insights. Proven in optimizing reporting systems, automating workflows, and enhancing data integrity.

EDUCATION

City University of New York, USA

Sep. 2022 – May 2024

Master of Science in Information Systems

Relevant Courses:

Programming for Analytics, Business Intelligence and Analytics, IT Project Management, Database Management Systems, Data Visualization, Advanced Data Analytics.

Kurukshetra University, India

Aug. 2017 – Jun. 2021

Secured a Bachelor of Engineering in Computer Science and Engineering with *distinction*

TECHNICAL SKILLS

- **Programming & Querying:** SQL, MySQL, PostgreSQL, Python, Pandas, Git, Advanced Excel (Macros, Pivot)
- **BI & Visualization:** Tableau, Power BI, QuickSight, Rapid Miner, Excel Dashboards, Looker, Excel Dashboards
- **Data Analysis & ETL:** SQL, PostgreSQL, MySQL, ETL Pipelines, Data Cleaning, Data Cleaning
- **Data Modeling:** Fact/Dimension Tables, Star & Snowflake Schema, OLAP/OLTP Systems
- **Statistical Analysis:** Regression, Forecasting, A/B Testing
- **Data Governance & Reporting:** KPI tracking, Data Quality, Business Intelligence
- **Other Tools:** Jira, Git, SDLC, Agile (Scrum), Data Governance, KPI Tracking

WORK EXPERIENCE

Dell Technologies, USA

Sep. 2022 – Present

Data Analyst

- Analyzed large datasets with **SQL & Python**, boosting efficiency by 40% while ensuring data integrity.
- Created **Tableau & Power BI dashboards**, automating reporting and boosting efficiency.
- **Optimized data models and ETL pipelines**, reducing query execution time by **30%** for faster insights.
- **Collaborated with stakeholders to define KPIs and metrics**, aligning data with strategic goals.
- Automated **data extraction & transformation workflows**, streamlining operations.

Trigent Software, India

Oct. 2020 – Jun. 2022

Data Analyst

- **Designed and Optimized data warehouse schema and fact/dimension tables**, boosting query performance.
- **Automated SQL-based ETL processes**, reducing errors and improving reporting accuracy.
- Developed **SQL queries** and **Power BI dashboards**, delivering insights to enhance executive decision-making.
- **Implemented data governance with engineering teams** to ensure accuracy, security, and compliance.
- Collaborated with business teams to **develop reporting solutions** and conducted root cause analysis.

Trigent Software, India

May 2020 – Aug. 2020

Business Analyst Intern

- **Analyzed processes, identified improvements, and supported BI solutions** to enhance efficiency.
- Assisted in **data visualization** and **reporting** with **SQL** and **Tableau** to **track key metrics** and deliver insights.
- **Collaborated with cross-functional teams** to **gather requirements, conduct market research, and support strategic decisions** with data analysis.
