SUMMARY

Full Stack Developer with 4+ years of experience building scalable web applications. Skilled in Java, Spring Boot, Spring MVC, React, AngularJS, and microservices architecture. Experienced in managing relational databases and NoSQL systems, as well as implementing DevOps practices using Docker, Kubernetes, and Jenkins. Strong background in collaborative development with Confluence, Bitbucket, and other Atlassian tools. Focused on writing clean, maintainable code and enforcing best practices through rigorous code reviews.

SKILLS

- **Backend:** Java, Spring Boot, Spring MVC, Hibernate
- **Frontend:** React, Angular, AngularJS, JavaScript, HTML, CSS
- **Databases:** MySQL, PostgreSQL, MongoDB, Relational Database Management
- **DevOps & Tools:** Docker, Kubernetes, Jenkins, Bitbucket, Git, CI/CD
- **Collaboration:** Confluence, JIRA, Atlassian suite
- **APIs:** REST, GraphQL, OpenAPI
- **Methodologies:** Agile, Scrum, Code Review

PROFESSIONAL EXPERIENCE

Full Stack Developer

Evernorth, USA

06/2023 – Present

- Led development of a healthcare app using Spring Boot, Spring MVC, and React, reducing manual entry errors by 40% and increasing operational efficiency by 25%.
- Redesigned the system from a monolithic architecture to microservices, enhancing scalability by 35% and reducing downtime.
- Deployed services using Docker and managed orchestration with Kubernetes, lowering infrastructure costs.
- Enhanced API security and communication using OAuth 2.0 and JWT.
- Led a cross-functional team using Confluence and Bitbucket, improving project documentation efficiency by 35% and reducing version control conflicts by 25%.

Software Engineer Intern

AT&T, USA

01/2023 – 05/2023

- Designed an employee management portal with Spring and AngularJS, cutting task tracking time by 40%.
- Integrated AWS S3 for file storage, boosting document retrieval speed by 25%.
- Optimized SQL queries and indexing strategies, improving database query performance.
- Conducted comprehensive unit and integration testing, reducing production defects.

Junior Java Developer

Accenture, India

09/2021 – 08/2022

- Managed enterprise applications with Spring Boot, handling up to 10,000 transactions daily.
- Developed and secured RESTful services, reducing API vulnerabilities by 40%, and conducted over 50+ code reviews to enforce best practices.
- Migrated legacy systems to microservices, boosting system scalability by 60% and reducing deployment time by 30%.
- Collaborated on a live project to upgrade legacy systems to microservices architecture, increasing system uptime and scalability, enabling the application to handle double the traffic.

IT Analyst

Deloitte, India

04/2021 – 08/2021

- Optimized API performance and caching strategies, reducing response times by 50% and enhancing user experience.
- Led real-time issue resolutions, decreasing system downtime by 45% and improving service availability to 99.8%.
- Implemented features for a real-time data analysis tool using Spring, allowing clients to generate and download reports with improved data visualization, reducing report generation time.
- Collaborated with cross-functional teams to integrate third-party APIs, expanding system capabilities and improving client satisfaction.

EDUCATION

Master of Science in Computer Science,

University of North Texas, Denton,

06/2022 – 05/2023

Bachelor of Engineering in Computer Science,

Gokaraju Rangaraju Institute of Engineering and Technology, Hyderabad, India

06/2017 – 05/2021
