

Kavya Samanthapudi

Data Analyst | 4+ Years | Python, SQL, AWS, Tableau | Machine Learning, ETL, Business Intelligence
NJ, USA (Open to Relocate) | +1 (656) 201 4494 | ksamanthapudi05@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Data Analyst with **4+ years of experience** in analytics, data engineering, and business intelligence. Specialized in transforming complex datasets into actionable insights to support strategic business decisions. Proven expertise in Python, SQL, AWS, machine learning, ETL pipelines, and data visualization using Tableau and Power BI. Adept at implementing scalable data solutions, developing predictive models, and automating data workflows using tools such as Apache Spark, Airflow, AWS Lambda, and Redshift. Strong communicator with a record of accomplishment of collaborating cross-functionally to drive efficiency, compliance, and revenue growth through data-driven decision-making.

SKILLS

- **Programming & Query Languages:** Python, SQL, Bash, SAS, Scala, Object-Oriented Programming (OOP), Data Structures & Algorithms
- **Data Tools & Libraries:** Pandas, NumPy, Scikit-learn, XGBoost, Matplotlib, Seaborn, TextBlob, VADER
- **Visualization & Reporting:** Tableau, Power BI, Excel, Jupyter Notebooks
- **Data Engineering & ETL:** Apache Spark, Apache Airflow, AWS Data Pipeline, ETL Frameworks, Data Integration & Transformation
- **Cloud Platforms:** AWS (S3, RDS, Redshift, Lambda, Athena, Glue)
- **Databases:** PostgreSQL, MySQL, SQL Server, NoSQL
- **Workflow & Version Control:** Git, GitHub, Jira
- **Methodologies:** Agile, Scrum, Waterfall, CRISP-DM, SDLC
- **Operating Systems:** Windows, Linux, Mac OS
- **Other Tools & Skills:** SMOTE, Postman, UAT Testing, Business Requirement Gathering, Data Governance, Risk Assessment, Regulatory Compliance (RBI, AML/KYC, HIPAA)
- **Soft Skills:** Analytical Thinking, Problem-Solving, Communication, Collaboration, Adaptability, Stakeholder Management, Attention to Detail, Presentation Skills

EXPERIENCE

Data Analyst | Allstate Insurance, NJ, USA

Aug 2024 – Present

- Integrated data from multi-source systems (claims, feedback, social media) using SQL and Python for a unified analytics pipeline.
- Built sentiment classification models using TextBlob and VADER; insights led to a 15% improvement in customer retention strategy.
- Developed Tableau/Power BI dashboards to monitor claims trends, customer satisfaction, and fraud detection across business units.
- Automated reporting and insights delivery using AWS Lambda and Redshift, reducing data processing time by 40%.
- Improved query performance by 30% through SQL optimization and effective indexing on PostgreSQL and MySQL databases.
- Collaborated with product managers and marketing teams to influence CX enhancements using data trends.
- Deployed predictive models (Logistic Regression, Random Forest) with Scikit-learn to streamline claims workflows, increasing approval accuracy by 18%.

Data Analyst | Hexaware Technologies, India

Mar 2021 – Dec 2022

- Engineered ETL pipelines using Apache Spark and Airflow to process over 10 million records monthly for fraud detection and churn prediction.
- Built and tuned predictive models using XGBoost, improving loan default prediction accuracy by 20%.
- Designed Power BI dashboards for fraud analysis and business KPIs, enhancing stakeholder visibility and reducing fraud losses by 12%.
- Leveraged AWS S3 and Redshift to manage cloud data warehouses; ensured compliance and reduced data retrieval time by 25%.
- Automated Lambda-based model inference pipeline, enabling near real-time alerting and reducing manual interventions.
- Applied SMOTE and feature engineering to improve model performance on imbalanced datasets.
- Created Git-controlled versioning structure for datasets, models, and SQL transformations.

Business Analyst | R-Financial, India

Jan 2020 – Feb 2021

- Conducted stakeholder interviews and mapped requirements for an automated loan approval system aligned with regulatory guidelines.
- Implemented UiPath RPA workflows to automate KYC verification, reducing manual processing time by 40%.
- Collaborated with data engineers to integrate historical lending data into AI models for default prediction.
- Managed UAT testing and change requests; ensured full compliance with RBI regulations on data privacy and fraud mitigation.
- Designed interactive Tableau dashboards displaying loan cycle metrics and approval times, increasing operational transparency.
- Delivered training workshops for 30+ employees, ensuring smooth user onboarding and system adoption.

EDUCATION

Master's in Computer Science | Pace University, New York, NY

Dec 2024

Bachelor of Engineering – Electronics & Communication | Institute of Aeronautical Engineering, Hyderabad, Telangana India

Aug 2021

CERTIFICATIONS

- Google Data Analytics Professional Certificate
- Tableau Desktop Specialist
- JP Morgan Agile Certified
- Model United Nations – Human Rights Organizer
