

## UDAY GUNTUPALLI

(945) 371-2308 || guday1899@gmail.com || <https://www.linkedin.com/in/udayrohith/> || Charlotte, NC

### PROFESSIONAL SUMMARY

Full Stack Engineer with 3+ years of experience designing and developing scalable, secure, high-performance enterprise applications. Skilled in Java-based microservices, REST APIs, and modern frontend frameworks including React and Angular. Strong contributor in Agile environments with hands-on experience across CI/CD pipelines, code reviews, cloud deployments, and financial/enterprise system release cycles. Passionate about building robust backend systems and intuitive front-end interfaces for large-scale business-critical applications.

### SKILLS

- **Backend:** Java, Spring Boot, Microservices, REST APIs, Node.js, .NET Core
- **Frontend:** React, Angular (working knowledge), TypeScript, JavaScript, HTML, CSS
- **Databases:** SQL, PostgreSQL, MongoDB, Oracle, DynamoDB
- **DevOps:** Git, Jenkins, Docker, Kubernetes, AWS (EC2, Lambda, S3)
- **Architecture:** Distributed systems, enterprise integrations, secure systems
- **Tools:** Jira, GitHub, CI/CD pipelines, code review tooling

### PROFESSIONAL EXPERIENCE

#### JP MORGAN CHASE, Dallas, Texas

Software Engineer, September 2024- August 2025.

- Designed and maintained **Java and TypeScript-based microservices** supporting enterprise-scale workflows in a regulated financial environment.
- Integrated backend services with internal databases and REST APIs ensuring performance, scalability, and security compliance.
- Developed modular UI components using **React**, improving user workflows across banking tools and data management systems.
- Participated in code reviews, Agile ceremonies, and enterprise release cycles, ensuring high-quality, production-ready code.
- Enhanced CI/CD pipelines using **Jenkins, Docker, and AWS**, reducing build times and increasing deployment reliability.
- Collaborated with cross-functional teams including product managers, architects, and data engineers on large enterprise initiatives.

#### SS&C (EZESOFT), Hyderabad, India

Associate Software Engineer, June 2022 – July 2023

- Built full-stack features using **.NET Core (Java-like enterprise stack)** and React for multi-tenant investment management systems.
- Designed RESTful APIs and backend job services handling high-volume financial data processing.
- Developed and maintained React UI components, ensuring consistency, testability, and modular design.
- Implemented SQL-based integrations and optimized data access patterns across complex financial workflows.
- Actively participated in Agile processes, code reviews, and CI/CD (Jenkins, Docker) for enterprise releases.
- Strong exposure to the **banking/investment domain**, working closely with financial analysts and operations teams.

#### Venx IT Solutions, Visakhapatnam, India

Junior Software Engineer, May 2020 - February 2022

- Developed backend services using **Java, Python, and C#**, supporting enterprise-grade microservices architectures.
- Built API gateways and backend integrations including authentication, data synchronization, and secure data processing.
- Created React/Electron UI components for internal tools with optimized performance and clean modular architecture.
- Improved testing reliability by writing unit/integration tests and resolving environment-level issues.
- Maintained CI/CD pipelines and supported release workflows for enterprise customers.

### PROJECT

#### Microservices-Based AI Agents Platform – Python, Azure, Kubernetes

- Designed multi-service distributed backend with REST APIs, container orchestration, and asynchronous processing—experience directly applicable to microservices-based Java systems.

#### Cross-Browser Automation Framework – TypeScript, Electron, Chromium APIs

- Built secure front-end tooling with robust business logic, reusable components, and optimized performance.

### EDUCATION

#### Master's in Engineering Science (Data Science)

University at Buffalo, The State University of New York, December 2024

### CERTIFICATIONS

AWS Certified Cloud Practitioner

Amazon Web Services

AWS Certified Developer – Associate

Amazon Web Services
