

SUMMARY

Data Analyst with **4+ years** of experience in **financial services** and **insurance**, specializing in **investment analytics**, **credit risk reporting**, and **KPI tracking**. Proficient in **SQL**, **Python**, **Tableau**, **Power BI**, and **AWS** (Redshift, Glue, Lambda), with hands-on expertise in **regulatory reporting** (SEC N-PORT, Basel III, SOX, GDPR) and **data validation**. Skilled at building end-to-end analytics solutions, automating dashboards, and collaborating with cross-functional teams to deliver **business insights** and ensure **data accuracy** across large, complex datasets.

SKILLS

**Programming & Query Languages:** Python (pandas, NumPy, seaborn, statsmodels, matplotlib), SQL (PostgreSQL, SQL Server, Oracle), Excel VBA, Power Query.

**Data Analysis & Modeling:** Time Series Analysis, Variance Analysis, Performance Attribution, ESG Analytics, NAV & AUM Trend Analysis, Credit Risk Analysis, Benchmark Deviation, Forecasting, KPI Development.

**Data Visualization & BI Tools:** Tableau (LOD Expressions, Tableau Prep), Power BI (DAX), Looker, AWS QuickSight, Alteryx, Excel Dashboards.

**Data Pipeline & Automation:** ETL/ELT Development, Data Cleaning & Wrangling, AWS Athena Queries, Ad Hoc Reporting Automation, AWS Glue, AWS Lambda, Step Functions, dbt.

**Cloud & Data Platforms:** AWS (S3, Athena, Redshift, Glue, Lambda, IAM), Snowflake.

**Reporting & Compliance:** Executive Dashboards, Regulatory Reporting (SEC N-PORT, N-CEN, SOX, GDPR, RBI, Basel III, GIPS), Fund & Portfolio Reporting, Audit Readiness.

**Data Governance & Quality:** Data Lineage, Data Validation, Reconciliation Checks, Metadata Documentation, Role Based Access Control (RBAC), Jira, Confluence, Governance Standards Alignment.

**Collaboration & Delivery:** Cross-Functional Stakeholder Engagement, Agile Methodologies, Jira Ticketing, SLA-Based Reporting, Self-Service BI Enablement, Offshore Coordination.

EXPERIENCE

State Street Corporation, USA

May 2024 – Present

Data Analyst

- Delivered actionable business insights by analyzing multi-asset **investment** portfolios using **SQL (Amazon Redshift, Athena)** and identifying trends in AUM movement, benchmark tracking error, and regional/sector exposure, improving report accuracy by 35%.
- Designed and deployed interactive **Power BI** dashboards to visualize key performance indicators (**KPIs**) such as **ESG compliance**, portfolio drift, and asset allocations, enabling self-service analytics for 50+ investment managers.
- Conducted **variance analysis** and **time series trend modeling** using **Python (pandas, seaborn, statsmodels)** on NAV fluctuations and FX-adjusted returns, supporting quarterly strategy reviews and exception-based reporting.
- Partnered with stakeholders from front office, risk, and regulatory teams to gather data requirements, define KPIs, and align reporting logic with **SEC (N-PORT, N-CEN)** and **GIPS** compliance, resulting in **faster reporting cycles** and **audit readiness**.
- Automated ad hoc and recurring performance reports by integrating **AWS Athena, S3**, and **QuickSight**, reducing manual data preparation time by 60% and enabling more timely business decisions.
- Led quality **audits** and **reconciliation** checks across trade-level, holding-level, and fund-level datasets using **SQL, Power BI**, and **Excel**, detecting anomalies and reducing data inconsistencies by 40%.
- Developed structured documentation in **Confluence** and maintained issue logs via **Jira**, improving collaboration between **data engineers**, compliance analysts, and product owners across U.S. and offshore teams.
- Supported **executive dashboards** for senior leadership, enabling visibility into performance attribution, investment concentration risk, and fund cash flow trends, influencing strategy and rebalancing decisions.

Hexaware Technologies, India

Sep 2020 - Aug 2023

Data Analyst

- Designed and implemented **SQL-based ETL pipelines** to extract and transform high-volume **financial** transaction data from **Oracle** and **SQL Server**, creating structured datasets for **credit risk analysis** and **regulatory reporting**.
- Developed **Tableau Visualizations** to track financial KPIs such as **loan default rates**, **fraud detection patterns**, **NPA trends**, and **credit score** distribution, enabling real-time insights for risk and finance teams.
- Performed **exploratory data analysis (EDA)** using **Python (pandas, NumPy, matplotlib, seaborn)** to uncover anomalies in customer account behavior and transaction trends, supporting RBI and Basel III compliance.
- Collaborated with business analysts, compliance officers, and financial controllers to gather data requirements and define metrics for **financial reporting**, **credit exposure analysis**, and **audit readiness**.
- Built **data validation** and **cleansing** workflows using **PySpark** and **SQL** stored procedures, improving data accuracy and consistency across risk, compliance, and audit departments by 40%.
- Automated month-end and quarter-end reporting processes using **Power Query** and **Excel VBA**, reducing manual workload by 60% and ensuring timely submission to internal audit and external regulators.
- Enforced **data governance** and access control policies, incorporating best practices in lineage tracking, encryption, and audit logging in adherence to **SOX** and **GDPR** standards.

PROJECTS

Loan Default Prediction using Machine Learning | Python, scikit-learn, Power BI

- Built a predictive model using **logistic regression** and **random forest** to classify loan defaults based on credit and income features, performing data cleaning, feature engineering, and visual reporting; improved recall on high-risk borrowers by 22%.

Insurance Claims Trend & Cost Forecasting | Python, Tableau, Excel

- Performed time series forecasting (**ARIMA**) and **trend analysis** on multi-year insurance claims data to project future costs and seasonal risk trends; delivered insights via a Tableau dashboard for finance and risk teams, improving forecasting accuracy by 20%.

EDUCATION

Master of Science in Computer Science and Information Technology

Sep 2023 – Dec 2024

Sacred Heart University, Connecticut, USA
