

Venkat Sai Uppu

📍 Cincinnati, OH, 45220 ✉ venkatsaiuppu@gmail.com ☎ +1(513)410-8634

SUMMARY

Data Analyst with 2 years' experience in data-driven decision-making. Proficient in Python, Tableau, and SQL, with a strong background in data visualization and automation. Reduced manual effort by 50% through automated data processing scripts, improving operational efficiency. Effectively communicated insights to senior management to drive strategic business decisions.

COMPUTER & TECHNICAL SKILLS

Programming Languages: Skilled in Python, JavaScript and experienced with SQL

Web and mobile app development: Pandas, NumPy, React.js, Node.js, HTML, CSS

Software: Tableau, powerBi, GIT, Machine Learning, Microsoft (Access, Word, Excel, PowerPoint)

Other Skills: Critical problem solving, Creativity, Verbal Communication.

EDUCATION

University of Cincinnati, Cincinnati, Ohio

Graduated: Dec2024

Master of Science: Information Technology

GPA: 4.0

Track: Cybersecurity, Data Analytics and Application Development.

VR Siddhartha, Vijayawada, India

Graduated: Mar2023

Bachelor of Science: Computer Science(CSE)

GPA: 3.4

Concentration: Database Management, Data security.

PROFESSIONAL AND TECHNICAL WORK EXPERIENCE

Data Scientist – Navasal

Jun 2024 – Jan 2025

- Engineered and transformed large-scale datasets using Pandas, NumPy, and SQL, implementing ETL pipelines in Apache Spark, which enhanced data preprocessing efficiency by 30% and improved model accuracy by 15%.
- Developed and deployed scalable machine learning models using Scikit-Learn, TensorFlow, and AWS SageMaker, optimizing hyperparameters with Optuna, reducing prediction error by 20%, and accelerating inference time by 25%.

Data Analyst-University of Cincinnati

Jan2024–Nov 2024

- Extracted, analyzed, and interpreted large, complex datasets to uncover trends, optimize strategies, and drive data-backed decision-making for client projects to evaluate performance of services.
- Designed and deployed dynamic detail-oriented data visualization dashboards using Python and Tableau, enabling stakeholders to identify key insights and act on critical business opportunities.
- Collaborated cross-functionally to define key performance metrics (KPIs) and implement data-driven solutions, resulting in a 13% improvement in project outcomes.

TECHNICAL PROJECTS

Customer Segmentation Analysis (2024)

- Prioritized customer behavior patterns with Python and data analytics libraries, resulting in actionable insights that help product development and marketing strategies, ultimately enhancing customer satisfaction scores by 30%.
- Implemented K-means clustering to identify customer segments, enhancing targeted marketing strategies, resulting in a 25% increase in customers.

Business Trade Analytics (2023)

- Developed a Python-based tool utilizing Pandas and NumPy for trade profit, loss, and probability analysis, delivering actionable insights for future trend predictions.
- Integrated advanced data visualization using Matplotlib and Seaborn, driving key financial insights and enhancing decision-making accuracy.

CERTIFICATIONS

- Career Essentials in Data Analysis by Microsoft and LinkedIn.
- Data Analyst Bootcamp by Alex [Data Analyst expert].
- Advanced Python certification (Coursera).
