

JUGAL PATEL

DOT NET DEVELOPER

jpatel4024@gmail.com | 813-773-3577 | Tampa, FL

SUMMARY

- 5+ years of working experience in Systems Analysis, Design, Development, and Implementation of various applications including Web and Client/Server Application development using Microsoft .NET Framework, C#.NET, ASP.NET.
- Well-Versed in the SDLC of requirement analysis, design, and development of the web-based application in the fast-paced agile methodology.
- Proficient in developing N-tier web applications using ASP.NET, C#. NET, ADO.NET, Web Services.
- Excellent knowledge of Develop Web Applications by using Dot Net Framework, WCF, and Web Services.
- Understanding of web technologies like HTML, CSS, JavaScript, Ajax, jQuery, and Bootstrap.
- Experience in developing Webpages using Visual Studio in C .NET, XML, ASP.NET, Web Services, SQL, ADO.NET and configuring the Internet Information Server IIS, developing and architecting internet-based applications.
- Knowledge of SQL Server and MongoDB in working with collections, indexes, shards, and other database management tasks.
- Ability to use Version Controlling tools such as GIT, and Team Foundation Server (TFS).

SKILLS

Methodology:	SDLC, Agile, Waterfall
Languages:	C#, SQL, T-SQL, PL/SQL
Frameworks:	.Net Framework, ASP.NET MVC, WCF, Angular
Web Technologies:	HTML, CSS, JavaScript, Ajax, jQuery, Bootstrap
IDE's:	Visual Studio
Middleware:	ADO.NET, Restful, Web Services
Application Server:	IIS
Databases:	MongoDB, SQL Server, Oracle
Tracking/Other Tools:	UML, MS Visio, Maven, Gradle
Version Control Tools:	Git, TFS
Operating Systems:	Windows, Linux

EXPERIENCE

Kofax, USA | April 2023 - Current | Dot Net Developer

- Conduct through testing, including unit testing and integration testing, to identify and address software defects.
- Work on the full software development lifecycle, from initial concept to deployment and ongoing support.
- Invent 10+ pocket time clock applications within 14 days of resuming the role using C#, .NET Compact Framework 2.0, and SOAP Web Services.
- Work in Agile Scrum methodology and delivered accepted functionality in each sprint.
- Consume Web API RESTful for building service-oriented application.
- Coordinate with other technical teams, laboratory researchers, and biostatisticians to ensure compatibility with modules and applications.

Health Axis, FL | Oct 2019 - March 2023 | Dot Net Developer

- Use an Agile methodology for software development.
- Develop and implement various Web Forms and User Controls using ASP.NET, and C#.
- Involving the database design, wrote stored procedures, database views, and T-SQL queries for the underlying SQL Server database.
- Create views, controllers, and models using ASP.NET MVC, C# within MS Visual Studio.
- Develop WCF Services to interact with applications to retrieve information.
- Implement Dependency injection pattern and was involving to create/subscribing to the services in Angular 12.0.
- Design and develop web user interface using HTML, CSS, JavaScript, and ASP.NET, and develop custom Web controls.
- Install Visual Studios in the Development environment and integrated with IIS to test actual outcomes in the local machines.

Magna Infotech, India | Jan 2018 - July 2019 | Dot Net Developer

- Involved in the Software Development Life Cycle (SDLC) for designing, development phase, and testing of the System.
- Published Web services using C# to interact with the other applications.
- Created stored procedures in T-SQL to improve data validation and system performance.
- Designed web pages using Master pages and created some rich server controls like Data Grid and Data List controls using ASP.NET.
- Implemented Client-Side Validation using JavaScript and Validation Server Controls.
- Used Team Foundation Server (TFS) for version control for the source code, maintenance of builds, and relevant documents.

EDUCATION

Bachelor in Computer Engineering | Babaria Institute of Technology, India
