Professional Summary

Experienced Clinical Data Manager with 4+ years of progressive responsibility in clinical data management, supporting global clinical trials across Phases I-III. Proven success in leading cross-functional teams, managing vendor oversight, and delivering submission-ready datasets aligned with regulatory standards (CDISC, FDA, ICH). Skilled in ePRO/eCOA/IRT system integration, database build, edit check specifications, and data review through database lock. Strong track record of driving inspection readiness, improving data quality, and supporting NDA/CTD submissions.

Education

Academy Of Applied Pharmaceutical Sciences (AAPS) Inc., Toronto, ON PG Diploma in Clinical Research, Drug Safety and Pharmacovigilance	May 2021 to Apr 2022
Seneca College, North York, ON Diploma in Chemical Laboratory Technician	Sep 2016 to Jan 2018
Gujarat Technological University, Chandkheda, Gujarat, India Bachelor of Pharmacy	Sep 2012 to May 2016

Professional Experience

SGS Nutrasource Clinical Data Manager, Guelph, ON	Nov 2023 to Current
---	----------------------------

- Lead end-to-end clinical data management activities across multiple clinical trials, ensuring compliance with regulatory standards (ICH-GCP, CDISC – SDTM, CDASH).
- Collaborate with cross-functional teams, CROs, vendors, and external partners to align deliverables, resolve issues, and maintain data integrity throughout the study lifecycle.
- Provide strategic oversight for vendor performance and deliverables, tracking timelines, quality metrics, and adherence to milestones.
- Design, review, and validate EDC databases and eCRFs based on study protocols, user requirements, and data conventions.
- Develop and maintain key study documentation including Data Management Plans (DMPs), eCRF completion guidelines, database lock plans, and data transfer agreements.
- Perform comprehensive data cleaning, query management, SAE reconciliation, medical coding resolution, and clinical data reviews to ensure accuracy and consistency.
- Oversee integration and reconciliation of external data sources (e.g., lab, ePRO, eCOA, IRT), creating specifications and reconciliation plans as needed.
- Conduct User Acceptance Testing (UAT), manage database user access, and validate edit checks and data capture screens.
- Provide system training and ongoing EDC support to site coordinators, CRAs, and biostatisticians, enhancing overall data entry quality.
- Ensure TMF document compliance, supporting audit readiness and regulatory inspection preparation.
- Develop interim/final data review strategies, drive activities for database locks, and support CSR submissions in collaboration with biostatistics.

- Participate in project budget and timeline planning by monitoring outsourced DM services and analyzing variance trends.
- Drive continuous improvement initiatives, implement new tools/processes, and lead knowledge-sharing sessions (KSS) within the data team.
- Organize and lead project status meetings with Clinical Project Managers to report metrics, risk areas, and action plans.
- Ensure all data management processes are executed with precision, compliance, and documentation integrity.
- **Key Achievements :**
 - **Ensured timely database lock for 3 Phase II studies, maintaining 100% audit-readiness score across all data deliverables.**
 - **Reduced query resolution time by 25% through streamlined edit check processes and training site coordinators.**

Centre for Ocular Research and Education (CORE)

Mar 2022 to Oct 2023

Data Management Coordinator, Waterloo, ON

Participated in end-to-end clinical data management activities, ensuring high-quality data delivery for clinical trials:

- Attended and contributed to protocol review meetings, kick-off meetings, and offline CRF review meetings to align with study objectives.
- Reviewed and updated key data management documentation, including the Data Management Plan (DMP), Database Build Specifications, Edit Check Specifications (ECS), eCRF Completion Guidelines, Reports Specifications, and Data Transfer Specifications for laboratories.
- Performed critical tasks such as User Acceptance Testing (UAT), report generation and review, query management, Serious Adverse Events (SAE) reconciliation, lab reconciliation, and medical coding review using MedDRA and WHO-DD.
- Collaborated extensively with the Clinical Project Manager (CPM), Clinical Operations (CRAs), and Biostatisticians to resolve discrepancies, errors, and missing information, ensuring a comprehensive audit trail within the clinical research database.
- Generated and shared weekly status reports and performance metrics with the study team, enabling effective tracking of study progress.
- Managed the eTMF (Veeva Vault) system, including uploading and maintaining study documents.
- Initiated, updated, and executed tasks outlined in the pre-lock and lock checklist, ensuring readiness for database lock.
- Conducted post-database lock activities, including CRF PDF generation, data archival, and CD burning for regulatory and study compliance.

LMC Manna Healthcare

Oct 2021 to Mar 2022

Clinical Trial Assistant, Toronto, ON

- Supported the creation and quality control of source documents used during the conduct of clinical research studies to ensure accuracy and compliance.
- Performed accurate, complete, and timely data entry of electronic or paper Case Report Forms (CRFs) into Electronic Data Capture (EDC) systems.
- Assisted Clinical Research Coordinators (CRCs) in responding to data management queries, addressing monitoring findings, and ensuring timely follow-up for data discrepancies.

- Created, maintained, updated, and organized the Investigator Site File (in RealTime CTMS) while ensuring compliance with Good Clinical Practice (GCP) guidelines and institutional SOPs/WPs.
- Prepared research and subject binders and other essential study files as required for clinical trial operations.
- Managed receipt, storage, and organization of Investigational Products (IPs), ensuring adherence to study protocols and regulatory requirements.
- Archived clinical research documents, tracked archived materials, and maintained organized records upon study completion for audit readiness.
- Attended research meetings, Sponsor-led trainings, and other study-related meetings to stay updated on study requirements and timelines.

Biopharma Service Inc.

Sep 2021 to Oct 2021

Clinical Data Associate (Co-op), Toronto, ON

- Performed data management activities in compliance with regulations, Good Clinical Practice (GCP) guidelines, and Standard Operating Procedures (SOPs).
- Edited, processed, and accurately entered clinical study data into Electronic Data Capture (EDC) systems from Case Report Forms (CRFs) and other source documentation.
- Conducted quality control (QC) reviews of entered clinical trial data to ensure accuracy, precision, and completeness.
- Identified discrepancies, errors, and missing information within study documentation and promptly escalated issues to the direct supervisor or designee.
- Created, reviewed, and processed data queries, ensuring timely database updates and resolution of discrepancies.

Clinosoft Research.

May 2021 to Jul 2021

Trainee, Hyderabad

- Performed data entry into electronic Case Report Forms (eCRF) from source documents, ensuring accuracy and completeness.
- Executed tasks such as User Acceptance Testing (UAT) to validate system functionality, report generation and review, and efficient query management to resolve data discrepancies.

Alpha Omega Management Corp.

Sep 2020 to May 2021

Senior Quality Assurance Technician, Etobicoke, ON

- Followed and enhanced existing quality assurance policies, procedures, and guidelines, ensuring compliance with all quality and safety standards.
- Collaborated with stakeholders to identify root causes of quality errors and implemented corrective actions to prevent recurrence.
- Maintained and executed sample-taking procedures for recording and reporting quality data, ensuring accuracy and consistency.
- Planned, conducted, and monitored daily testing and inspection of raw ingredients and finished products to maintain product quality.
- Led cross-functional teams and departments through the food recall process, ensuring swift and efficient execution.
- Investigated customer complaints and non-conformance issues in a timely, thorough manner,

- delivering actionable solutions to improve quality performance.
- Ensured consistent readiness for internal and external audits, providing accurate documentation and meeting all audit requirements successfully

CONCORD PREMIUM MEATS LTD

Nov 2018 to Sep 2020

Quality Assurance Technician, Brampton, ON

- Performed in-process control monitoring, including equipment and room swabbing for microcontamination, water testing, air quality testing, environmental control verification, equipment calibration, and pest control.
- Developed, implemented, and continuously improved methods and procedures to drive quality and food safety improvements.
- Coordinated with CFIA inspectors during on-site visits, prepared, and communicated corrective action plans to address non-conformances effectively.
- Participated in internal GMP, HACCP, and Food Safety audits, ensuring compliance with quality and regulatory standards.
- Conducted internal investigations and root cause analysis to identify and resolve issues, preventing future occurrences.
- Ensured adherence to Standard Operating Procedures (SOPs) and compliance with both internal policies and external legislation.
- Compiled and maintained records for analytical studies, supporting data-driven decisions and compliance reporting.
