PROFESSIONAL SUMMARY

Experienced Full Stack **Java Developer** with **four years** of expertise in designing, developing, and maintaining **enterprise-level applications**. Skilled in **Java, Spring Boot, Hibernate, and Microservices**, with hands-on experience in **RESTful APIs and cloud technologies** such as **AWS, Azure, and GCP**. Proficient in front-end technologies, including **React.js, JavaScript, and HTML/CSS**. Adept at **implementing DevOps practices**, automating deployments, and ensuring security through **OAuth2, JWT, and RBAC**. Strong background in **database management**, optimizing queries, and enhancing system performance.

TECHNICAL SKILLS

- **Programming Languages:** Java, C++, C, JavaScript, Groovy Script, jQuery
 - **Frameworks & Technologies:** Spring Boot, Spring MVC, Hibernate, JSP, Servlets, JDBC, Web Services (SOAP/REST), GraphQL
 - **Front-End Technologies:** React.js, Angular, JavaScript, jQuery, HTML5, CSS3, Bootstrap
 - **Databases:** PostgreSQL, MySQL, Oracle, SQL Server, MongoDB
 - **DevOps & CI/CD:** Jenkins, GitHub Actions, GitLab CI/CD, Azure DevOps, Maven, SonarQube
 - **Cloud Platforms:** AWS (EC2, S3, Lambda, API Gateway), Microsoft Azure (AKS, Blob Storage), Google Cloud Platform (GCP)
 - **Containerization & Orchestration:** Docker, Kubernetes, Helm
 - **Messaging & Streaming:** Kafka, RabbitMQ
 - **Logging & Monitoring:** ELK Stack (Elasticsearch, Logstash, Kibana), Splunk, Prometheus, Grafana
 - **Security Best Practices:** OAuth2, JWT, Role-Based Access Control (RBAC)
 - **API Gateway & Middleware:** Kong, Apigee, JBoss, Apache Tomcat, WebLogic
 - **Version Control & Tools:** GitHub, Bitbucket, Subversion (SVN), Postman, SOAP UI, ServiceNow, Log4J
 - **Development Methodologies:** Agile (Scrum, Kanban), Test-Driven Development (TDD), Behavior-Driven Development (BDD)
-

PROFESSIONAL EXPERIENCE

Full Stack Java Developer

CVS Healthcare | Springfield, IL | July 2023 – Present

- Developed and deployed **microservices-based applications** using **Spring Boot, RESTful APIs, and Hibernate**.
- Migrated legacy **monolithic applications** to **containerized microservices** with **Docker and Kubernetes**.
- Improved **database query performance** and implemented stored procedures for **PostgreSQL**.
- Integrated **OAuth2, JWT, and RBAC** to strengthen application security and user authentication.
- Configured **CI/CD pipelines** using **Jenkins, Azure DevOps**, and automated code quality checks with **SonarQube**.
- Designed and implemented **event-driven architectures** using **Kafka and RabbitMQ**.
- Developed **GraphQL APIs** for improved data retrieval efficiency.
- Implemented **unit and integration testing** strategies with **JUnit, Mockito, and Cucumber**.
- Deployed and monitored applications in **Azure Kubernetes Service (AKS)** using **Prometheus and Grafana**.
- Worked in an **Agile development** environment, participating in sprint planning and code reviews.

Key Contributions

- Enhanced API response times through optimized **query execution and caching strategies**.
 - Transitioned **legacy services to microservices**, improving system flexibility and maintainability.
 - Strengthened security measures by integrating **RBAC and API Gateway policies**.
-

Java Developer

HDFC Bank | Mumbai, India | Sep 2020 – Dec 2022

- Led the **migration of legacy systems** to a **microservices-based architecture**, improving system performance and scalability.
- Designed and maintained **RESTful APIs**, ensuring secure and efficient data exchange between applications.
- Improved system efficiency by implementing **caching strategies** for frequently accessed data.
- Diagnosed and resolved **application bottlenecks**, enhancing system reliability and uptime.
- Guided junior developers on **best practices in Java, Spring Boot, and API development**.

Key Contributions

- Reduced **application response times** by implementing **caching and query optimization techniques**.
 - Developed monitoring dashboards, reducing **system downtime** through proactive issue detection.
 - Led the modernization of backend services, decreasing maintenance overhead and improving performance.
-

EDUCATION

Master's in data science | Pace University, New York | Jan 2023 – Dec 2024

Bachelor's in Engineering | JNTUH, Hyderabad | 2018 – 2021

CERTIFICATIONS

AWS Certified Developer – Associate

Microsoft Azure Fundamentals (AZ-900)

Oracle Certified Java Programmer (OCJP)

Spring Professional Certification

Java Programming Certification
